What makes a horror television drama interesting? Like any other drama, it is often the character development or plot, and this certainly applies to the dramatically-resonant Supernatural and its beloved characters. However, Supernatural has achieved a dedicated fandom and a record-breaking 15-season run by skillfully engaging with the social reality inhabited by the show's audience. Additionally, the show plays with the fourth wall by having an in-world fandom for the main characters. Supernatural's many layers have garnered the attention of academics who analyzed the show's engagement with diverse topics such as the #MeToo movement, consumerism, and the American Dream. This collection of essays studies the topical issues and politics that added depth and maturity to Supernatural, separated it from X-Files knock-offs, and garnered the show its own cult following.

In music studies, Timothy D. Taylor is known for his insightful essays on music, globalization, and capitalism. Music in the World is a collection of some of Taylor's most recent writings—essays concerned with questions about music in capitalist cultures, covering a historical span that begins in the late nineteenth and early twentieth centuries and continues to the present. These essays look at shifts in the production, dissemination, advertising, and consumption of music from the industrial capitalism of the nineteenth century to the globalized neoliberal capitalism of the past few decades. In addition to chapters on music, capitalism, and globalization, Music in the World includes previously unpublished essays on the continuing utility of the concept of culture in the study of music, a historicization of treatments of affect, and an essay on value and music. Taken together, Taylor's es-

says chart the changes in different kinds of music in twentieth- and twenty-first-century music and culture from a variety of theoretical perspectives.

Anyone with an academic, professional, amateur, or recreational interest in the theatre is likely to want to look up details of particular plays sometimes - perhaps to check on the author, or on when they were first performed, or perhaps to see how many characters they have, and whether or not they would be suitable for their theatre company or drama group to perform. The Oxford Dictionary of Plays provides essential information on the 1000 best-known, best-loved, and most important plays in world theatre. Each entry includes details of title, author, date of composition, date of first performance, genre, setting, and the composition of the cast, and more. A synopsis of the plot and a brief commentary, perhaps on the context of the play, or the reasons for its enduring popularity, follow. Around 80 of the most significant plays - from *The Oresteia* to *Waiting for Godot* - are dealt with in more detail. Genres covered include: burlesque, comedy, farce, historical drama, kabuki, masque, melodrama, morality play, mystery play, No, romantic comedy, tragicomedy, satire, and tragedy. An index of characters enables the reader to locate favourite characters, and trace the trajectory of major historical and legendary characters - such as Iphigenia - through world drama, including in plays that do not have entries in the Dictionary. An index of playwrights, with dates, allows the reader to find all the plays included by a particular author.

A transition guide to prepare students socially and culturally for the high school experience. Individual chapters provide insights and exercises to help students cope with diversity and its inherent themes of self-esteem/identity, stereotyping, perception and oppression. Truancy is a major challenge with middle and high school students. This challenge is secondary to growing attitudes of apathy and nihilism, which may be a direct result of feelings of being unprepared and culturally incompetent. This book is designed to address these challenges by helping students to build healthy self-es-

teem through identifying similarities and respecting differences across cultures (cliques, high school vs middle school, ethnic, etc.) and to develop a sense of purpose. A confident student with a purpose is more likely to attend class and apply him or herself. Additionally, this book is designed to support the teacher, promote education, define and build self-esteem, discourage stereotyping, and teach students to investigate the big picture before drawing conclusions or forming an opinion through awareness of the complexities of perception. It is a tool that promotes a positive outlook while sneaking in learning in the process. Dr. Vanessa Girard is a Creole, born in New Orleans, Louisiana. She and her siblings struggled with identity throughout adolescence, being teased by their African American brother-in-law that they didn't "have a flag." Her work with a Native American tribe in Arizona sparked a passion to learn about mono-cultural perspectives, with hopes that the quest would lead her to self-discovery. She found that her multiethnic heritage has provided her with an extraordinary ability to empathize and relate across races, and in that realization, she feels more accepted by others. "I am not Black, or White, or Hispanic, or Native American; I am all of them and that's okay!" Dr. Girard has worked in the field of education for 15 years in various capacities, as a teacher, dean of students, community educator and assistant director of education. She possesses a B.A. in Education from Arizona State University, and an M.A. in Education and a Doctorate in Management and Organizational Leadership from the University of Phoenix. "At my school we are reading about your life and you talk about our future. I am really happy to be learning about you and your accomplishments; what you have accomplished makes me want to do the best I can do in school, life, and my future. I just wanted to let you know that I am truly impressed and inspired by what you've said in this book. You have said things in your book that most parents and/or adults don't even remember or understand; it's like you still know how hard it is to be a kid/teen. And with other things that are going on these days you even understand more. You taught me and my classmates the meaning of enjoying what I have right now before it all passes you by, but [to] be careful of [our] decisions." -- Michelle Mercado, 13-year-old student, Chandler, AZ "I believe the information provided in this book to be of value for every student and teacher of any ethnicity or demographic. At a time when our schools are suffering increases in truancy and dropout rates, this book offers a much needed resource to assist students. It is sincere and bolsters positive outlooks and behaviors." -- Rep. Ben Miranda, AZ House of Representatives "Skyline has been really happy to present this author's views in our school. She speaks the language that students need to hear and in the way they want to listen to." -- Ronda Owens, M.Ed., Superintendent, Skyline K-12 Schools, AZ
