A Tale of Two Cities (1859) is a historical novel by Charles Dickens, set in London and Paris before and during the French Revolution. The novel tells the story of the French Doctor Manette, his 18-year-long imprisonment in the Bastille in Paris and his release to live in London with his daughter Lucie, whom he had never met. The story is set against the conditions that led up to the French Revolution and the Reign of Terror.

The Importance of Being Earnest is the final play of Oscar Wilde, and it is considered his masterpiece. The play is a farcical comedy with the theme of switched identities: the play's two protagonists engage in "bunburying" (the maintenance of alternative personas in the town and country) which allows them to escape Victorian social mores. Working within the social conventions of late Victorian London, the play's major motives are the triviality with which it treats institutions as serious as marriage, and the resulting satire of Victorian ways.
