Recent research findings have challenged the idea that creativity is domain-general. Domain Specificity of Creativity brings together the research information on domain specificity in creativity -- both the research that supports it and answers to research arguments that might seem to challenge it. The implications for domain specificity affect how we move forward with theories of creativity, testing for creativity, and teaching for creativity. The book outlines what these changes are and how creativity research and applications of that research will change in light of these new findings. Summarizes research regarding domain specificity in creativity Outlines implications of these findings for creativity theory, testing, and teaching Identifies unanswered questions and new research opportunities

It is a truth universally acknowledged, that a single man in possession of a good fortune, must be in want of a wife. However little known the feelings or views of such a man may be on his first entering a neighbourhood, this truth is so well fixed in the minds of the surrounding families, that he is considered the rightful property of some one or other of their daughters.

The Bennet family of nineteenth-century rural English society makes every effort to marry off five daughters

This book examines how literary texts can be incorporated into teaching practices in an EFL classroom. It takes a multi-faceted approach to how English language teaching and learning can best be developed through presentation and exploration of literary texts.

When Elizabeth Bennet first meets eligible bachelor Fitzwilliam Darcy, she thinks him arrogant and conceited; he is indifferent to her good looks and lively mind. When she later discovers that Darcy has involved himself in the troubled relationship between his friend Bingley and her beloved sister Jane, she is determined to dislike him more than ever. In the comedy of manners that follows, Jane Austen shows the folly of judging by first impressions and evokes the friendships, gossip and snobberies of provincial middle-class life.

*Bargaining on Nuclear Tests* tells the yet untold story of how Washington under Ronald Reagan's presidency duplicated the nuclear deal on ambiguity reached with Israel in 1969 in its dealings with Pakistan and South Africa in 1981. It puts the story of nuclear tests at the heart of a new Cold War historical narrative.

*Redefining the Modern* spans nearly a century and a half in a series of essays that capture the crucial shifts and transformations marking the change from the Victorian to the Modern period. At the center of the collection is the understanding that literature responds to, as well as initiates, social, intellectual, and sometimes political change. It also recognizes that historical categories, like genres, need to be realigned. The diverse material ranges from Jane Austen's laughter to female detectives and black fiction. It coheres, however, through its focus on the interaction of language and society and the way language and culture maintain a persistent and dynamic exchange. Rather than deny links between one period and another, this collection argues for continuity and development, emphasizing revision and renewal rather than rejection and refusal. No longer do critics accept fierce divides or unbridgeable paths between the work of the Victorians and moderns. Recent approaches to the period, reflecting gender, cultural studies, and new historicism, provide fresh means of assessment. Central to this reconception is the recognition that if the Victorians invented us, we, in turn, h

For Jane Austen and *Pride and Prejudice* fans everywhere, this is Mary Bennet's story . . . 'Will delight *Pride and Prejudice* fans' - Independent 'It's difficult not to race through those final pages' - Jo Baker, author of *Longbourn* In Jane Austen's *Pride and Prejudice*, Mary is the middle of the five Bennet girls and the plainest of them all, so what hope does she have? Prim and pious, with no redeeming features, she is unloved and seemingly unlovable. The Other Bennet Sister, though, shows another side to Mary. An introvert in a family of extroverts; a constant disappointment to her mother who values beauty above all else; fearful of her father's sharp tongue; with little in common with her siblings - is it any wonder she turns to books for both company and guidance? And, if she finds her life lonely or lacking, that she determines to try harder at the one thing she can be: right. One by one, her sisters marry - Jane and Lizzy for love; Lydia for some semblance of respectability - but Mary, it seems, is destined to remain single and live out her life at Longbourn, at least until her father dies and the house is bequeathed to the reviled Mr Collins. But when that fateful day finally comes, she slowly discovers that perhaps there is hope for her, after all. Simultaneously a wonderfully warm homage to Jane Austen and a delightful new story in its own right, Janice Hadlow's *The Other Bennet Sister* is, at its heart, a life-affirming tale of a young woman finding her place in the world. Witty and uplifting, it will make you feel - and cheer - for Mary as you never have before.

The testing and assessment of language competence continues to be a much debated issue in foreign language teaching and research. This book is the first one to address the testing of four important dimensions of foreign language education which have been left largely unconsidered: learner autonomy, intercultural competence, literature and literary competence, and the integration of content and language learning. Each area is considered through a theoretical framework, followed by two empirical studies, raising questions of importance to all language teachers: How can one test literary competence? Can intercultural competence be measured? What about the integrated assessment of content-and-language in CLIL and teaching? Is progress in autonomous learning skill gaugeable? The book constitutes essential reading for anyone interested in the testing and assessment of seemingly largely untestable aspects of foreign language competence.
