Technically the name "Space Shuttle" solely applies to the Space Shuttle Program (STS) of the USA. Including the Buran Project leads to the question what else may qualify as a "Space Shuttle". Changing the template to "Space Planes" may be appropriate. This would lead to admitting other craft into this template. I created a proposal template (shown on the right) that includes craft that may ...

[Template talk:Space Shuttles - Wikipedia](#)

The first of the Great Observatories was deployed from the Space Shuttle Discovery into Earth orbit in April 1990. It is the product of two decades of research and development by 10,000 scientists and engineers at various NASA centers, private companies, universities, and the European Space Agency. The purpose of Hubble is to study the cosmos from low-Earth orbit.

Cassini Paper Model Building paper models of spacecraft is a fun and interactive way to learn more about NASA's missions. Models are available for easy, moderate and more challenging skill sets. Each model has assembly instructions and printable parts; assembly requires printing, cutting, folding and gluing.
