APOS, in partnership with IPOS Press, publishes pocket handbooks for oncology clinicians to guide the psychiatric and psychological dimensions of cancer symptom management for adult, pediatric, geriatric (new in 2015), and palliative care patients. These handbooks are available for purchase directly from Oxford University Press.

*Reference Handbooks | APOS*

This subspeciality addresses the two major psychological dimensions of cancer: the psychological responses of patients to cancer at all stages of the disease, and that of their families and caretakers; and the psychological, behavioral and social factors that may influence the disease process. Psycho-oncology is an area of multi-disciplinary interest and has boundaries with the major specialities in oncology: the clinical disciplines (surgery,

medicine, pediatrics, radiotherapy ...

*Psycho-Oncology - Wiley Online Library*

Pediatric Psycho-Oncology is an ideal resource for helping pediatric oncologists and nurses recognize when it may be best to refer patients to their mental health colleagues and for those who are establishing pediatric oncology services or adding psychosocial components to existing clinics.
