Hi fellas my name isXXXXX trying to find out how to time a 4 cyl perkins diesel engine out of a 180 massey tractor. the engine spun a bunch of bearings and wrecked the crank so i tore it all

apart and forgot to mark everything so now i have no clue where the timing marks are and how to put it back together. the only thing i took out is the crank and it could go it a bunch of ways. I want to put ...

Re: Perkins Fuel Injection Pump Timing Problem I take back that I'm happy and satisfied with my retarded IP timing. My engine doesn't start nearly as easy as it used to when cold and it doesn't seem to have the power that I had before exchanging IP's.

I'm trying to check the fuel pump timing (it is a Perkins AD3 152), because the engine is almost un-startable, it smokes badly when I give it throttle, it runs like crap (certainly not on all 3 or it is de-timed) and it sounds like it exhausts in the intake at low RPM (I can't say idle because it's too rough to be called so).

Perkins had relied on the P4 engine during the years after the war as the power unit for many applications from passenger cars to industrial equipment. By the end of the 1950s the engine was becoming outdated, with the indirect 'Aeroflow' combustion system becoming uncompetitive with new generations of engines from other manufacturers.
