## 5QC105 - ANTWAN ALESSANDRO

The title of the book promises an account of philosophy and science from the perspective of divine sovereignty in the undiluted biblical and Augustinian sense. The standpoint is, with some modifications, the presuppositional apologetics of Cornelius Van Til. An effort is made to draw conclusions from biblical data. In this process, a formidable technical terminology is introduced which readers ...

It is my contention that political philosophy must get rid of the word, as well as the concept, of Sovereignty: -not because it is an antiquated concept, or by virtue of a sociological-juridical theory of "objective law"; and not only because the concept of Sovereignty creates insuperable difficulties and theoretical entanglements in the field of international law; but because, considered ...

Sovereignty, in political theory, the ultimate overseer, or authority, in the decision-making process of the state and in the maintenance of order. The concept of sovereignty—one of the most controversial ideas in political science and international law—is closely related to the difficult concepts of state and government and of independence and democracy.

**International relations - Wikipedia**

Hobbes's moral philosophy therefore provides justification for, and informs, the theories of sovereignty and the state of nature that underpin his political philosophy. In utilising methods of deductive reasoning and motion science, Hobbes examines human emotion, reason and knowledge to construct his ideas of human nature (moral philosophy).
