40LVWB - SIMS MICHAELA

The 911 Turbo (internally known as 930) was the flagship of Porsche, with its 3.0 litre engine and single Turbo. Porsche was the first company to adapt this Turbo technology to their road cars. The Turbo became the top of the crop and was considered being a supercar in the same league as the Ferrari Daytona, the Ferrari 365 GTC/4, and the Lamborghini Countach. The first Porsche 930 Turbo for sale with boost was the 1975 911 Turbo.

Changes had to be made to accommodate the exhaust and heat, along with reinforcing the driveline for increased power. So the 911 Turbo gained fame it's on an internal model: 930 Porsche.

This 1975 Porsche 911 Carrera was built to race at the track. Sitting in back of the car is a turbocharged 3.3 L flat-six from a 1989 Porsche 930. The air-cooled motor features 964 camshafts and lifters, Rarlyl8 Motorsports headers, K27 turbocharger, and custom intercooler.

Porsche 911 Turbo (930)

IDOL BOOST. The mid 1970s was just about the worst era in automotive history to be launching a brand new supercar. Oil prices had tripled in the space of two years, inflation was galloping and regulators across the world were doing their best to eliminate automotive enjoyment.

The Porsche 930 is a sports car manufactured by German automobile manufacturer Porsche between 1975 and 1989, known to the public as the 911 Turbo. It was the maker's top-of-the-range 911 model for its entire production duration and, at the time of its introduction, was the fastest production car available in Germany.

The gold Porsche striping and the gold painted Fuchs inserts are non original to this car. But the owners grandfather used to have a 1975 930 Turbo in black with a tan interior and gold Porsche lettering as well as golden wheels. On top of that his car was equipped with what they called at the time "security striping" on the front hood.
