Civil Service online tests - GOV.UK

The basic accounting equation is assets = liabilities + owners' equity. You can always double-check your answer by going back to the original equation assets = liabilities + owners' equity. In this example, the sum of liabilities of \$245,000 and owners' equity of \$331,000 is \$576,000.

To calculate the total equity, you need to add them up as follows: capital stock of \$40,000 plus retained earnings of \$12,000 to give a total equity of \$52,000. If you need more practice on this and other topics from your accounting course, visit Dummies.com to purchase Accounting For Dummies!
