The new Surface Pen is able to detect 4096 levels of pressure and has 1024 levels of tilt sensitivity, which was not available on previous generations. It has 21 milliseconds of latency, making it "the fastest digital pen on the planet" at the time of release, according to Microsoft.

### **Surface Pen - Wikipedia**

Each successive generation of the iPhone has added new features and, in almost all cases, they've gotten better. From the original iPhone (which looks kind of old and pokey now, but was a pretty big step forward in terms of ease of use and multi-touch) through to the iPhone 11 series, each step in iPhone history has introduced big changes to the iPhone line up.
