Nursing educators need additional awareness of nursing students' perspectives on importance of professional values as a basis to use more effective methods for applying professional values. Therefore, nursing educators are able to educate graduates who are ready for decision-making and can effectively deal with daily ethical challenges.

The primary value of a professional code of conduct is not as a checklist for disciplining non-conforming members, although breaches of a code of conduct usually do carry a professional disciplinary consequence. Rather, its primary value is to act as a prompt sheet for the promotion of ethical decision-making by members of that profession.

Ethics is a branch of philosophy that addresses the concepts of right and wrong or good and evil. Ethics can also be called moral philosophy. Morality means usually a more practical approach to ethics, for example questions about the right and wrong in actions. Adjectives "moral" and "ethical" can be used fairly synonymously. Applied ethics addresses practical, everyday issues.
