*Project portfolio management and managing multiple projects*

Managing one project can be tricky. Managing multiple projects is so much harder than that. With several projects going on at once you need to juggle different business objectives, goals, schedules and deadlines. As your responsibilities and the number of tasks you need to manage grow, it's easy to make costly mistakes.

Project Managers are master multi-taskers. Working on several projects at the same time, overseeing a team, require a lot of management and administrative skills as well as time and effort. Besides these skills, you will need a reliable tool to stay afloat among all of these complicated tasks with many people you are managing.

*Managing Multiple Projects: Tips For Project Managers*

During our doctoral research on multi-project management, my colleague Albert Ponsteen and I accumulated data from over 4,000 business owners, CEOs, and project managers. We focused on multi-project environments, where several projects run simultaneously and have a shared pool of resources, task dependencies, and overlapping due dates.

Managing multiple projects means that you act as the hub that leads to both multiple stakeholders and teams; therefore, you must update stakeholders and direct your teams. However you do this (in person, on a project management tool or with documentation) it has to be clear. Remember, communication is also listening.

*Top Tools for Managing Multiple Projects* Managing multiple projects is a juggling act; managing multiple projects with intertwined dependencies can be a nightmare. Project provides tools to help you manage cross-project dependencies, even tasks in one project that are dependent on the completion of another project.

The biggest tip I can give you for managing multiple projects at the same time is to keep communication channels open. Keep talking to the team leaders, the project sponsors, the managers. Stay close to what they are expecting from you.
