YM4EHT - MORGAN OCONNELL

The phrase "project management" is a simple description of a complex activity. Before you can even plan the project, you must get it approved by stakeholders and sponsors. So, you're sort of a salesman. Then you must plan it, schedule it, budget it, all within the confines of what has been approved.

One of the founding principles of the PRINCE2 project methodology (and a core principle in any flexible approach to managing projects) is the idea of management by exception. This posits that interference from senior management is only necessary if the situation demands it.
