A Vancouver based mining company, Taseko Mines Ltd., has applied to mine at Fish Lake. The proposed mine, which is called "Prosperity Mine" by Taseko, would completely destroy Fish Lake, a fish bearing lake in the Chilcotin. This lake has an estimated 85,000 rainbow trout of which around 4,500-5,000 are caught annually.

New Prosperity Gold-Copper Mine Project - Canada.ca

The Prosperity Mine assessments represent an important case study about the differences between the federal and provincial assessment procedures and raise significant questions about the benefits and challenges of working towards a single, combined assessment process, as has been proposed by both levels of government.

Prosperity Mine An Assessment Of BC Environmental Assessment Certificate to expire in ...

The federal government's decision to reject the mine follows a report released on October 31 in which the federal panel appointed to carry out an environmental impact assessment of the proposed mine concluded that it would have "severe" impacts on the Tsilhqot'in and "significant" long-term, and irreversible impacts on water quality in Teztan Biny, on fish habitat, and on wetlands ecosystems.
