Why should you accept a savings account interest rate of 0.01 percent? or accept a Treasury bill that pays less than 2% annually? With a \$500k nest egg in 1990, you could have retired in comfort. All you needed to do to earn a consistent 8% a year was to invest your money in a Treasury Bill. That's \$40,000 put into your account annually from what most analysts would deem to be the safest investment in the entire planet. Today, you won't receive 8% a year if you invest \$500,000 in the same Treasury Bill. Not even close. A Treasury Bill only paid 1.25 percent year in 2020. With a \$500,000 investment, that's only \$6,250 in annual income. On \$6,250 a year, you cannot live anywhere in the US, the UK, or Canada. What should one do instead? In addition to outlining why you shouldn't rely on government bonds for your retirement, this book will also outline exactly what you should do in its place-spoiler alert: it doesn't entail using Social Security. You'll need the correct knowledge to assist you plan out your next steps if you want to make sure you get off to the right start. Opportunity comes in many forms, from many sources, with many histories. Brimming with stories and parables, Lynch and Rothchild also explain: Why the world as we know it would collapse without investors . . . How capitalism, from the time of the American Revolution on, has shaped the past, and how that affects us today . . . How Coke, Campbell's Soup, Ben & Jerry's, Microsoft, and other big companies got started, who gets rich from them, and how they got that way . . . The landlords will also have guidelines to use in order to tell you if you are approved or not approved based on your credit score. While some may allow you to have a cosigner if you are not approved, they will also want to run your co-signer's credit report. This is often frustrating to many people, especially when you are trying to repair your credit. It can make you feel that you are never given a break or that your identity is now your bad credit. It doesn't have to be this way. In fact, the more you learn about the details of what bad credit is and how there are federal laws to help you overcome bad credit, the faster you will find yourself in financial freedom. Your credit score is vital to your life. It is something that helps you to enjoy life as you have added access to financial services and various investments. You must understand how your score can directly influence what you can purchase so that you can enjoy your life. The problems you have with your credit score can be very dramatic and you might not be fully aware of what affects your credit score or how valuable it is to you.
