Women, Race and Class is a 1981 book by the American academic and author Angela Davis. It contains Marxist feminist analysis of gender, race and class. The third book written by Davis, it covers U.S. history from the slave trade and abolitionism movements to the women's liberation movements which began in the 1960s. Race, Class, and Gender in the United States: An Integrated Study presents students with a compelling, clear study of is-

sues of race, gender, and sexuality within the context of class.

 the relative significance of 'race' and ethnicity alongside other factors, especially

gender and social class background, so as to clarify an agenda for racial equality in education.

Race, class, and gender in the United States reveals that the possibility of achieving the "American dream" takes more than a strong work ethic and education, rather it means having many of the privileges and benefits that minorities and lower class citizens lack.

Race and gender are significant factors in education. The Washington Post tells us that soon "gender blind admissions will be the new campus rallying cry." Gender imbalance in schools is so senseless and has come to the point where some students are revolting, and want their admissions being looked at as genderless, just so they'll have a better chance of being accepted.

Abstract Race, social class, and gender tend to be treated as separate issues in education literature. We review a sample of education literature from four journals, spanning ten years, to determine the extent to which these status groups were in-

tegrated. We found little integration.

Race and gender seem to be the two primary classifying agents which lead to the distribution of resources. Beyond that, economic class, race and gender structures, experience of poverty and domestic violence, shape the ways women experience life and are integrated in society. How this reflects on the shaping of identities of individuals is clear.

Race, Class, and Gender in the United States: An Integrated Study presents students with a compelling, clear study of issues of race, gender, and sexuality within the context of class. Rothenberg offers students 126 readings, each providing different perspectives and examining the ways in which race, gender, class, and sexuality are socially constructed.

Race is defined as a group of persons related by common descent or heredity (Dictionary). Many notice this as color of skin or where you were born. The differences in race, class, gender is what make the position of an individual in society.
