A History of the Indian Novel in English traces the development of the Indian novel from its beginnings in the late nineteenth century up until the present day. Beginning with an extensive introduction that charts important theoretical contributions to the field, this History includes extensive essays that shed light on the legacy of English in Indian writing. Organized thematically, these essays examine how English was "made Indian" by writers who used the language to address specifically Indian concerns. Such concerns revolved around the question of what it means to be modern as well as how the novel could be used for anti-colonial activism. By the 1980s, the Indian novel in English was a global phenomenon, and India is now the third largest publisher of English-language books. Written by a host of leading scholars, this History invites readers to question conventional accounts of India's literary history.

A sweeping cultural history of India’s largest city A place of spectacle and ruin, Mumbai exemplifies the cosmopolitan metropolis. It is not just a big city but also a soaring vision of modern urban life. Millions from India and beyond, of different ethnicities, languages, and religions, have washed up on its shores, bringing with them their desires and ambitions. Mumbai Fables explores the mythic inner life of this legendary city as seen by its inhabitants, journalists, planners, writers, artists, filmmakers, and political activists. In this remarkable cultural history of one of the world's most important urban centers, Gyan Prakash unearths the stories behind its fabulous history, viewing Mumbai through its turning points and kaleidoscopic ideas, comic book heroes, and famous scandals—the history behind Mumbai's stories of opportunity and oppression, of fabulous wealth and grinding poverty, of cosmopolitan desires and nativist energies. Starting from the catastrophic floods and terrorist attacks of recent years, Prakash reaches back to the sixteenth-century Portuguese conquest to reveal the stories behind Mumbai's historic journey. Examining Mumbai's role as a symbol of opportunity and reinvention, he looks at its nineteenth-century development under British rule and its twentieth-century emergence as a fabled city on the sea. Different layers of urban experience come to light as he recounts the narratives of the Nanavati murder trial and the rise and fall of the tabloid Blitz, and Mumbai's transformation from the red city of trade unions and communists into the saffron city of Hindu nationalist Shiv Sena. Starry-eyed planners and elite visionaries, cynical leaders and violent politicians of the street, land sharks and underworld dons jostle with ordinary citizens and poor immigrants as the city copes with the dashed dreams of postcolonial urban life and lurches into the seductions of globalization. Shedding light on the city's past and present, Mumbai Fables offers an unparalleled look at this extraordinary metropolis.

Today, comic art is the favorite reading fare for millions of Asians, and is a government-sanctioned, value-added product, as in the case of Korean and Japanese animation. Yet not much is known about Asian cartooning. Themes and Issues in Asian Cartooning uses overviews and case studies by scholars to discuss Asian animation, humor magazines, gag cartoons, comic strips, and comic books. The first half of the book looks at contents and audi-

ences of Malay humor magazines, cultural labor in Korean animation, the reception of Aladdin in Islamic Southeast Asia, and a Singaporean comic book as a reflection of that society’s personality. Four other chapters treat gender and Asian comics, concentrating on Japanese anime and manga and Indian comic books.

This book explores the relationship between multiplicity and representation of non-European and European-American cultures, with a focus on comics and superheroes. The author employs a combination of research methodologies, including close reading of transmedia texts and interviews with trans-media storytellers and audiences, to better understand the way in which diverse cultures are employed as agents of multiplicity in transmedia narratives. The book addresses both commercial franchises such as superhero narratives, as well as smaller indie projects, in an attempt to elucidate the way in which key cultural symbols and concepts are utilized by writers, designers, and producers, and how these narrative choices affect audiences – both those who identify as members of the culture being represented and those who do not. Case studies include fan fiction based on Marvel’s Black Panther (2018), fan fiction and art created for the Moana (2016) and Mulan (2020) films, and creations by both U.S.-based and international indie comics artists and writers. This book will appeal to scholars and students of new media, narrative theory, cultural studies, sociocultural anthropology, folkloristics, English/literary studies, and popular culture, transmedia storytelling researchers, and both creators and fans of superhero comics.

This pioneering book presents a history and ethnography of adventure comic books for young people in India with a particular focus on vernacular superheroism. It chronicles popular and youth culture in the subcontinent from the mid-twentieth century to the contemporary era dominated by creative audio-video-digital outlets. The authors highlight early precedents in adventures set by the avuncular detective Chacha Chaudhary with his ‘faster than a computer brain’, the forays of the film veteran Amitabh Bachchan’s superheroic alter ego called Supremo, the Protectors of Earth and Mankind (P.O.E.M.), along with the exploits of key comic book characters, such as Nagraj, Super Commando Dhruv, Parmanu, Doga, Shakti and Chandika. The book considers how pulp literature, western comics, television programmes, technological developments and major space ventures sparked a thirst for extraterrestrial action and how these laid the grounds for vernacular ventures in the Indian superhero comics genre. It contains descriptions, textual and contextual analyses, excerpts of interviews with comic book creators, producers, retailers and distributors, together with the views, dreams and fantasies of young readers of adventure comics. These narratives touch upon special powers, super-intelligence, phenomenal technologies, justice, vengeance, geopolitics, romance, sex and the amazing potentials of masked identities enabled by navigation of the internet. With its lucid style and rich illustrations, this book will be essential reading for scholars and researchers of popular and visual cultures, comics studies, literature, media and cultural studies, social anthropology and sociology, and South Asian studies.

Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. Illustrating Asia is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic books, comic strips, picture books, and humor and fan magazi-

nes—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.

Indian Comics and Graphic Novels news, updates.

This book is the first attempt to theorise South Asian Gothic production as a common cultural landscape, taking into account both the historical perspective and the variety of media texts. The volume consists of fifteen chapters by experts in film, literature and cultural studies of South Asia, representing the diversity of the region and a number of ways in which Gothic manifests in contemporary South Asian cultures. Gothic in South Asia can be read as a distinctive aesthetic, narrative practice, or a process of signification, where conventional Gothic tropes and imagery are assessed anew and global forms are consumed, appropriated, translated, transformed or resisted. The volume investigates South Asian Gothic as a local variety of inter-

national Gothic and part of the transnational category of globalgothic, contributing to the ongoing discussion on the need to de-westernise Gothic methodologies and ensure that Gothic scholarship remains relevant in the culturally-diverse modern world.

The research on men and masculinities traces back to the women's and gay liberation movements that challenged existing understandings of gender and power. This proposes to look into gender as socially constructed than what was earlier thought to be biological. As a logical extension of Feminism, Masculinity Studies looks into sex/gender as a discursive social construct and tries to understand them through theoretical hermeneutics. Instead of considering masculinity to be 'natural character type', 'a behavioural average' or 'a norm', the focus should be given to the process through which the gendered bodies perform. In this regard, sex/gender is not fixed, instead is in a continuous flux; thus, masculinity should be recognised as a gender presentation that is continuously transforming and evolving. This volume, *Body Politics: Rethinking Gender and Masculinity* will engage with the current developments in the field of Masculinity Studies and will try to diversify the issues of gender and masculinity.
