Addressing fundamental problems in modern Western approaches to art, this bold, brilliant, and important book proposes a new and flexible conceptual framework for the understanding of art by replacing the notion of the "visual arts" with that of the "spatial arts." 350 illustrations.

This collection of essays, by a number of established scholars and artists, proposes new directions for Marxist cultural theory and the criticism of modern visual culture. It addresses a diverse range of topics, including the state and revolution, Communist and post-Communist aesthetics, Situationist thought and the avant-garde, subjectivity and commodification, and the

politics and problems of contemporary artistic practice. The contributions also consider several other pressing questions in the visual arts, from the practice of digital culture to appropriations of critical theory, from the relations of art and the spectacle to architecture in the age of global modernity. This book on Marxism and art is not offered in a spirit of nostalgia: on the contrary, it testifies to the continuing vitality and confidence of historical materialist thought in the field of cultural theory and practice in the 21st century.

In this book David Andrew Snider provides a playbook for anyone interested in navigating the arts and arts management in this new era. Through clear lessons, relevant case studies, and a series of fun, interactive activities, the author shares core principles of arts management and how to adapt and innovate in these extraordinary times

Literary critics and scholars have written extensively on the demise of the "utopian spirit" in the modern novel. What has often been overlooked is the emergence of a new hybrid subgenre, particularly in science fiction and fantasy, which incorporates utopian strategies within the dystopian narrative, particularly in the feminist dystopias of the 1980s and 1990s. The author names this new subgenre "transgressive utopian dystopias." Suzette Haden Elgin's *Native Tongue* trilogy, Suzy McKee Charna's *Holdfast* series, and Margaret Atwood's *The Handmaid's Tale* are thoroughly analyzed within the context of this this new subgenre of "transgressive utopian dystopias." Analysis focuses particularly on how these works cover the inter-related categories of gender, race and class, along with their relationship to clas-

sic literary dualism and the dystopian narrative. Without completely dissolving the dualistic order, the feminist dystopias studied here contest the notions of unambiguity and authenticity that are generally part of the canon.

The Philosophy of Fine Art is regarded by many as one of the greatest aesthetic theories to have been produced since Aristotle. Hegel's thesis about the historical dissolution of art has been the subject of much scholarly debate. Hegel develops his account of art as a mode of absolute spirit that he calls "the beautiful ideal."

Including 3 full length exams, structured and styled exactly like what you will find on the real test, this study guide is designed to increase and maximize scores for any student regardless of current subject knowledge and skills. The current AP Art History exam includes approximately 500 works of art, analyzed from a historical perspective. The redesigned exam released for the 2015-2016 school year, emphasizes critical analysis of works of art and understanding of relationships among global artistic traditions. The new curricu-

lum for the AP Art History course includes fewer works of art, reducing the total number included in the class from 500 to 250 and incorporates a slightly higher percentage of non-Western works of art. While there are some changes to the overall content and structure of the exam, the skills and focus of the course and exam are largely unchanged. This review guide is intended to meet the needs of students testing in 2014, 2015, 2016 and beyond. This AP Art History exam cuts through the clutter and eliminates the fluff found in other study guides. This results in more effective time, which in turn means higher scores on the test. Includes 3 FULL LENGTH AP Art History practice test for all concepts!

Jesus proclaimed God's imminent universal kingdom. His Jewish followers were faithful to him. Paul misunderstood Jesus and subverted his message, but succeeded when the truth was accidentally lost in history. This book calls for a major paradigm shift in the church's thinking and practice if the church is to engage with the upcoming generations of the third decade of this fast-changing twenty-first century. Just as the church has had to adapt to a changing

context in the past, it now needs to engage seriously with this post-enlightenment, post-human, techno-centric age of artificial intelligence. However, the church also needs to recall its counter-cultural, prophetic role, following Elijah, Jeremiah, Amos, Jesus, and Paul, challenging society as it faces complex dilemmas raised by technology-driven development in these unprecedented times. The church will have to acknowledge unaddressed weaknesses in the past: of identifying with established power rather than vulnerability and the marginalized; of depending on a hierarchical, ministerial order at the expense of the ministry of every believer; of acquiescing to materialist, anthropocentric, and consumerist growth as an undisputable norm. This book develops the vision of a church engaged in the mission of God: of welcoming technological development but with an eye on kingdom values; of promoting innovation, so long as it does not result in a growth of inequality, or at the expense of the environment; of pointing towards a humanity that deepens its relationships with its Creator, its fellow humans, and its environment. The author calls on grassroots believers to reflect and

act, within their local communities, as inspired and empowered daughters and sons of God, in the knowledge that following Jesus Christ provides a radical new paradigm for living, learning and leading, in and through these times of epochal change.

This book offers an overview of iconographic methods and their application to archaeological analysis. It offers a truly interdisciplinary approach that draws equally from art history and anthropology. Vernon James Knight, Jr begins with an historiographical overview, addressing the methodologies and theories that underpin both archaeology and art history. He then demonstrates how iconographic methods can be integrated with the scientific methods that are at the core of much archaeological inquiry. Focusing on artifacts from the pre-Columbian civilizations of North and Meso-American sites, Knight shows how the use of iconographic analysis yields new insights into these objects and civilizations.

The publication of Chinua Achebe's Things Fall Apart (1958) is heralded as the inaugu-

ral moment of modern African fiction, and the book remains the most widely read African novel of all time. Translated into dozens of languages, it has sold more than twelve million copies, and has become a canonical reading in schools the world over. While *Things Fall Apart* is neither the first African novel to be published in the West nor necessarily the most critically valued, its iconic status has surpassed even that of its author. Until now—in the sixtieth anniversary year of its publication—there has not been an updated history that moves beyond the book’s commonly discussed contexts and themes. In the accessible and concise *A Short History of Chinua Achebe’s Things Fall Apart*, Terri Ochiagha provides that history, asking new questions and bringing to wider attention unfamiliar but crucial elements of the *Things Fall Apart* story. These include new insights into questions of canonicity and into literary, historiographical, and precolonial aesthetic influences. She also assesses adaptations and appropriations not just in films but in theater, hip-hop, and popular literary genres such as *Onitsha Market Literature*.

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in *Arrow of God* and *No Longer at Ease*.

This book offers the first genuinely systematic treatment of Hegel's eschatology in the literature. It is an investigation into Hegel's project to demonstrate the ultimate unity of thought and being (consciousness and reality, self and world). The author traces the project through Hegel's epistemology, metaphysics, and philosophy of history. The grand synthesis creates a basic tension, an ambivalence, that reaches its most acute formulation in Hegel's eschatological language of a final completion or fulfillment of history. This

conflicts with his dialectic and Heraclitian metaphysics of becoming. Berthold-Bond concludes that a substantially new approach to Hegel's eschatology is needed.
