Conference European Regulation on Classification, Labelling and Packaging (CLP) Reach Registration Concawe

REACH is the European Regulation (EC) No 1907/2006, on the Registration, Evaluation, Authorisation and Restriction of Chemicals. The REACH Regulation was adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals, while enhancing the competitiveness of the European Union (EU) chemicals industry.

REACH - Concawe

Petroleum Substances and REACH.

Petroleum substances registered in REACH have a total tonnage of 971 million tonnes per annum (tpa) based on 2013 data. In 2016, ECHA formed the Petroleum and Coal Stream Substances Working Group (PetCo WG) with representatives from ECHA, European Commission, Member States and industry stakeholders including Concawe, with a mandate to develop the approach for assessment of petroleum substances for potential Substances of Very High Concern (SVHC) status.

Petroleum Substances and REACH - Concawe

The REACH regulation also allows to recover a fair share of the cost incurred in generating data for REACH from all registrants. Concawe has prepared the joint parts of the Registration Dossiers for the following “categories of substances”:
Low Boiling Point Naphthas (Gasolines)
Kerosines; Straight-run Gas Oils; Cracked Gas Oils
