'One of the most extraordinary stories you will ever read of the triumph of the human spirit' Daily MailSet in 1970s Manchester, Once in a House on Fire tells the true story of three sisters and their mother, a close-knit and loving family forced to battle with poverty, abuse and the effects of depression. Beautifully written and deeply inspiring, with a new afterword by Andrea Ashworth, it is a book that will stay with its readers for ever.

Public relations as described in this volume is, among other things, society's solution to problems of maladjustment that plague an overcomplex world. All of us, individuals or organizations, depend for survival and

growth on adjustment to our publics. Publicist Edward L. Bernays offers here the kind of advice individuals and a variety of organizations sought from him on a professional basis during more than four decades. With such knowledge, every intelligent person can carry on his or her activities more effectively. This book provides know-why as well know-how. Bernays explains the underlying philosophy of public relations and the PR methods and practices to be applied in specific cases. He presents broad approaches and solutions as they were successfully carried out in his long professional career. Public relations is not publicity, press agency, promotion, advertising, or a bag of tricks, but a continuing process of social integration. It is a field of adjust-

ing private and public interest. Everyone engaged in any public activity, and every student of human behavior and society, will find in this book a challenge and opportunity to further both the public interest and their own interest.

'Stuart does not like the manuscript. He's after a bestseller, "like what Tom Clancy writes". "But you are not an assassin trying to frazzle the president with anthrax bombs," I point out. You are an ex-homeless, ex-junkie psychopath, I do not add.'

Which sort of seducer could you be? Siren? Rake? Cold Coquette? Star? Comedian? Charismatic? Or Saint? This book will show you which. Charm, persuasion, the ability to create illusions: these are some of the many dazzling gifts of the

Seducer, the compelling figure who is able to manipulate, mislead and give pleasure all at once. When raised to the level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over. The Art of Seduction is an indispensable primer on the essence of one of history's greatest weapons and the ultimate power trip. From the internationally bestselling author of The 48

Laws of Power, Mastery, and The 33 Strategies Of War.

An updated reference for power and sail boaters surveys the latest developments in safety systems, marine electronics, radar, and communications, and federal laws and regulations, and includes information on tides, currents, weather, and navigation.

"One of the greatest inspirational and motivational books ever written." — Norman Vincent Peale In this bestselling self-help book, a successful businessman reveals the secrets behind harnessing

the unlimited energies of the subconscious. Millions of readers have benefited from these visualization techniques, which show you how to turn your thoughts and dreams into actions that can lead to enhanced income, happier relationships, increased effectiveness, heightened influence, and improved peace of mind. World War I veteran Claude M. Bristol (1891-1951) wrote *The Magic of Believing* to help former soldiers adjust to civilian life. This assessment of the corporate governance role of corporate lawyers in the UK analyses the extent to which lawyers can and should act as gatekeepers, counsellors and reputational intermediaries. Focusing on external and in-house lawyers' roles in both dispersed share-ownership and owner-managed companies, Joan Loughrey highlights the conflicts of interest

that are endemic in corporate representation and examines how lawyers should respond when corporate agents provide instructions contrary to the company client's interests. She also considers the legitimacy of 'creative compliance', the ethical arguments for and against lawyers prioritising the public interest over their clients' interests, and their exposure to liability if they fail to perform a corporate governance role. Finally, she considers whether the reforms to the legal profession will promote the lawyer's corporate governance role and advances suggestions for reform.

"A World in the Making is a kind of anthropological journey taken by four historians that assumes all societies are "hot," and all people make history and always have. We argue in our emphasis on lives and livelihoods for a world constructed, altered, renovated, remade by ordinary people even as we acknowledge the genius of individual innovators, disruptors who broke the mold or struck out in some new direction."--Provided by publisher.

This open access book presents multidisciplinary research on the cultural history, ethnic connectivity, and oceanic transportation of the ancient Indigenous Bai Yue (百越) in the prehistoric maritime region of southeast China and southeast Asia. In this maritime Frontier of China, historical documents demonstrate the development of the "barbarian" Bai Yue and Island Yi (岛夷) and their cultural interaction with the northern Huaxia (华夏) in early Chinese civilization within the geopolitical order of the

"Central State-Four Peripheries Barbarians-Four Seas". Archaeological typologies of the prehistoric remains reveal a unique cultural tradition dominantly originating from the local Paleolithic age and continuing to early Neolithization across this border region. Further analysis of material culture from the Neolithic to the Early Iron Age proves the stability and resilience of the indigenous cultures even with the migratory expansion of Huaxia and Han (汉) from north to south. Ethnographical investigations of aboriginal heritage highlight their native cultural context, seafaring technology and navigation techniques, and their interaction with Austronesian and other foreign maritime ethnicities. In a word, this manuscript presents a new perspective on the unique cultural landscape of indigenous ethnicities in southeast China with thousands of years' stable tradition, a remarkable maritime orientation and overseas cultural hybridization in the coastal region of southeast China. From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of

meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society's most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capital-

ism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. "Clever and charismatic" (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and "a thought-provoking examination of our working lives" (Financial Times).
