#### **CDM2007 - Construction work sector guidance for designers**

The Construction (Design and Management) Regulations 2007 (CDM2007) apply to construction work undertaken in the UK and for all projects for which designers have duties under CDM. This guide helps any person or organisation acting as a designer to meet their obligations with respect to construction hazards in an effective manner.

CIRIA has produced a number of guidance documents covering a range of opportunities and challenges related to general water management, all the way through to specific SuDS components. The more notable publications are CIRIA C753 The SuDS Manual and CIRIA C713 Retrofitting for surface water management.

CIRIA was formerly known as the Construction Industry Research and Information Association. They are a member-based research and information organisation who publish reports and technical papers covering building and civil engineering as well as transport and utilities infrastructure.
