 Human Cloning Essay. 1608 Words 7 Pages. Imagine a future where humans are manufactured, a future where humans are created by science, a future where humans are the new lab specimen. Human cloning is like opening Pandora's Box, unleashing a torrent of potential evils but at the same time bringing a small seed of hope.

Cloning Fact Sheet - Genome.gov

fuss about cloning is the fact that cloning is nothing new: it's complex scientific history branches out for more than 100 years (Genetic Science Learning Centre). The first experiments in cloning date back to 1885, when German biologist Hans Driesch split two-cell sea urchin embryos. Once

Cloning Essay | Cram

The cloning of humans remains universally condemned, primarily for the associated psychological, social, and physiological risks. There are also concerns that cloning promotes eugenics, the idea that humanity could be improved through the selection of individu-

als possessing desired traits. There also exists controversy over the ethics of therapeutic and research cloning, which makes use of embryos that are otherwise discarded.

opposition to cloning was almost instant, perhaps too instant. The hasty reaction of an overwhelming portion of the population indicates that an already existing ideology towards cloning had developed even before cloning was achieved. Scientists and philosophers agree that the previous use of genetic engineering in literary works, even if unconsciously, caused the vast majority of individuals to develop a negative or unrealistic perspective regarding cloning.
