SCM Studyguide to Biblical Hermeneutics offers entry-level undergraduates a framework for interpreting the Bible. The book goes beyond offering guidance on how to do exegesis, and is intended as a practical tool to help readers develop good interpretative strategies for themselves. As such it features pedagogical tools such as Try it Out boxes to assist students to develop a tested and thought - through overall interpretative strategy of their own. Market-tested to ensure a good coverage of the typical topics found on a standard level-one hermeneutics course, this "Studyguide" is designed as a practical and comprehensive companion to coursework, be that within a secular institution, a theological institution or within Church reading groups. The authors set out from the beginning to make clear that interpretation of the Bible is largely affected by the reader's own situation and therefore, the text is designed to guide the reader through the myriad of accepted methods of

interpretation, no matter what the reader's own perspective or situation may be.

The only volume available to provide the doctor's and patient's view. This book is an invaluable resource for anyone coping with the physical and emotional turmoil of this disorder.

The SPIRIT IS in the Form is a collection of three books which allow the author to reveal the movement of Spirit in modern times through both familiar and original works. These books--The Symbolic Version of the Wizard of Oz (The Motion Picture), Hey There! Here I Am!! and Stop Dying and Start Living--use symbols to contrast the literal interpretation of the story to reveal a totally different meaning using the very same words. The new meaning is applicable to oneself in daily living. The simple message: Let the Spirit that is coming to you come through you.

Combines a conceptual model of motor performance with a principles-to-application learning approach, making comprehension of the principles of motor performance and learning accessible even for students with little or no knowledge of physiology, psychology, statistical methods, and other basic sciences.
