However, Denis Wood's sequel to *The Power of Maps*, takes us far, far deeper into the substratum of how we come to have and use these tools. It examines the assumptions we make about them and their import for both local and global communities. Wood subjects what we call "a map" to a strict historical scrutiny.

### **Review: Rethinking the Power of Maps by Denis Wood**

Denis Wood is an independent scholar writing critically about maps for the past four decades. His recently published *Rethinking the Power of Maps* (Guilford Press, 2010) argues that the rise of the map coincided with the rise of the nation-state, and uses Palestine as a

case study to illustrate how maps only come into existence when societies call for them.
