...and death came third! The definitive guide to networking and speaking in public. Do you dread going to networking events? Do you hide at the back of the room when you have the opportunity to present your business? In 1984 a New York Times Survey on Social Anxiety placed death third in the list of people's biggest fears. The top two responses were walking into a room full of strangers and speaking in public. Facing these two fears head on, '...and death came third!' rocketed straight to Number Two on the Amazon UK bestseller lists on publication of its First Edition in 2006. Since then thousands of people have turned to its pages to help them network and present with much more confidence. In this updated second edition you can discover how to: Walk into a networking event and approach people with CONFIDENCE, STRUCTURE a talk so that you can get your key message across POWERFULLY, ENGAGE people in conversation and get them interested in YOU, FOCUS on the results you want from networking and achieve them EASILY, STAND and speak with CONVICTION and AUTHORITY and much, much more. Brought to you by Andy Lopata, Business Networking Strategist and Peter Roper, The Natural Presenter.

The first biography of the great historian whose career was made and unmade by Hitler. Hugh Trevor-Roper's life is a rich subject for a biography - with elements of Greek tragedy, comedy and moments of high farce. Clever, witty and sophisticated, Trevor-Roper was the most brilliant historian of his generation. Until his downfall, he seemed to have everything: wealth and connections, a chair at Oxford, a beautiful country house, an aristocratic wife, and, eventually, a title of his own. Eloquent and versatile, fearless and formidable, he moved easily between Oxford and London, between the dreaming spires of scholarship and the jostling corridors of power. He developed a lucid prose style which he used to deadly effect. He was notorious for his acerbic attacks on other historians, but ultimately tainted his own reputation with a catastrophic error when he authenticated the forged 'Hitler Diaries'. Adam Sisman sheds new light on this fascinating and dramatic episode, but also shows that there was much more to Hugh Trevor-Roper's career than the fiasco of the Hitler Diaries hoax

that became his epitaph. From wartime code-breaking to grilling Nazis while the trail was still fresh in 1945 (and finding Hitler's will buried inside a bottle), to his wide-ranging interests, his snobbery and his malice, his formidable post-war feuds with Evelyn Waugh, Tawney, Toynbee, Taylor and many others, and his secret and passionate affair with an older, married woman. A study in both success and failure, Adam Sisman's biography is a revealing and personal story of a remarkable life.
