For any runner considering training for a half marathon, author and running coach Jeff Galloway can help you prepare to train, enjoy training, and cross the finish line strong. In this book, Olympian Jeff Galloway outlines for each runner how to select a realistic goal and what workouts to use to best prepare for the race. He includes tips for staying motivated while at the same time eliminating aches, pains, and injuries. He also assures runners that their training will not completely consume their time so that they can train successfully while still enjoying other aspects of life. The author's successful and unique run-walk-run training method has helped thousands of average people train for half marathons, even if they have never run be-

fore. Using this program, even veteran runners can improve their personal bests. With this book, every runner will be given a step-by-step guide on setting up their training each week so that they will finish the half marathon strong!

Hal Higdon shows runners of every calibre how to train and run short, popular 5, 8 and 10 kilometre races faster with added information on how to recuperate and stay focused when the going gets rough.

Achieve a personal best at any distance Are you looking for better race times, whether you run 5Ks or marathons? Searching for that ultimate, exhilarating moment when you're running faster than ever before? Or do you just want to have more fun when you run? You can run faster, and this book will show you how. Run Fast is a comprehensive guide for run-

ners of all abilities to improve your speed and achieve a personal best at any distance. Hal Higdon is one of the most experienced and trusted experts in running, and this classic volume is completely revised and updated with new workouts, race distances, and advice for runners of every level. Run Fast spells out a complete program to help you increase your speed, build your endurance, improve your times, and motivate yourself to achieve your running goals. New training plans for novice runners make getting started easy. More experienced runners will discover refreshing workouts that both improve their speed and make training fun. And, if you've taken an exercise break, you'll see how to get back in shape while staying injury free. Packed with stories and tips from coaches, record-holders, and average run-

ers alike, Run Fast is brimming with inspiration. Experience the thrill of better race times, the satisfaction of running strong, and the sheer joy that comes from running faster than ever before.

Hit the ground running with this easy, total-body training guide. Whether you're a weekend runner looking to get in better shape or a road warrior aiming to tackle your first marathon, Easy Running Plans has something for you. Throughout this book, you'll learn the most effective stretching routines, strength workouts, and technique drills for runners--culminating in seven, easy-to-follow running plans. Whatever your goal may be, these plans will help you get there. And with the total-body approach, you'll not only get the most out of your runs but acquire the skills necessary to keep injuries at bay. Easy Running Plans contains the following: Lace up--Choose the training schedule that best suits your needs, whether you're looking to make steady gains or have your sights set on a 5k, 10k, half-marathon, or marathon. Study up--Learn the fundamentals of proper running form, stride, injury-prevention, and recovery. Speed up--Improve your speed, strength, and endu-

rance with detailed illustrations depicting over 40 stretches, exercises, and drills--all of which can be performed at home, with little-to-no equipment. When you're ready to elevate your running game, pick up a copy of this book and get moving.

Run your first marathon or your fastest with Hansons Marathon Method, the revolutionary training program from one of the best running teams in the world, the Hansons-Brooks Distance Project. In Hansons Marathon Method, the coaches of the Hansons-Brooks Distance Project reveal their innovative marathon training program that has helped thousands of runners become true marathoners and smash their personal bests. Hansons Marathon Method tosses out mega-long runs and high-mileage weekends--two old-fashioned running traditions that often injure and discourage runners. Runners using the Hansons method will gradually build up to the moderate-high mileage required for marathon success, spreading those miles more sensibly throughout the week. Running easy days mixed with precisely paced speed, strength, and tempo workouts, runners will steel their bodies and minds to run the

hardest final miles of the marathon--and finish strong. In this new second edition, the Hansons program welcomes newer runners with a new Just Finish program featuring a simple schedule of easier running and lower mileage. The Just Finish program sets up first-time marathoners for an enjoyable marathon and a lifetime of strong, healthy running. Hansons Marathon Method will prepare you for your best marathon: Sensible weekly mileage based on science, not outdated traditions Effective Hansons speed, strength, and tempo workouts paced to achieve your goal Crucial nutrition and hydration guidelines to run strong for the whole race A smart and simple Just Finish program for new runners and marathon first-timers Detailed training schedules for experienced and advanced marathoners This revised second edition answers frequently asked questions, shows how to integrate flexibility and strength work into your training week, and shares the most effective recovery methods. Using the Hansons' innovative approach, you will mold real marathon muscles, train your body to avoid the wall, and finish strong. Hansons Marathon Method lays out the smartest marathon

training program available from one of the most accomplished running groups in the world. Using their innovative approach, runners will mold real marathon muscles, train their body to never hit the wall, and prepare to run their fastest marathon. "You might expect a training program devised by the Hanson brothers to be a little different than the usual rehashing of principles and schedules. Given the success of athletes from the Hansons-Brooks Distance Project, you wouldn't be surprised if it was effective, too." -- Runner's World

As "Runner's World's" columnist and poster child for adult-onset athletes, John "the Penguin" Bingham offers the ultimate introduction to long-distance running and walking.

Half Marathon: A Complete Guide for Women is a must-have for adult women of any age at any fitness level who want to train for a half marathon. Using Jeff Galloway's proven Run Walk Run® method, this book offers a step-by-step program for women that will get them started with weekly training. The training plans follow the run-walk-run format, allowing the runner to increase her mileage while decreasing her time, safely and effectively. An added

benefit of these training programs is that they can easily fit into any busy schedule because training needs to happen only three days a week. Along with the training programs, this book offers nutrition advice for women—what and when to eat and how to control weight while training. It offers advice on staying motivated and preventing injury while training as well. Also included is information on women-specific issues. Any woman looking to complete a half marathon will find all the information she needs to run-walk-run fast and finish her race strong.

At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible

runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

The essential day-to-day guide for training for and nailing your first marathon. 'Chris is a mad keen runner. I hope this book inspires others to get out and do it.' Sir Mo Farah

Gives practical advice on warmups, stretches, motivation, running technique, racing strategy, training methods, and hot, cold, and high altitude running conditions

Presents a half-marathon training program that offers plans for both beginner and advanced runners, stressing lower-mileage runs; speed, strength, and tempo workouts; and nutrition and hydration planning. Running continues to rise in popularity, but many of us don't know where to start. Through her bestselling exercise DVDs and incredible running achievements, including running a sub three hour marathon, Nell McAndrew has built a reputation as a fitness expert. This book shares Nell's love of

running and will inspire you to take up the sport, as well as helping anyone already running to improve their performance. This is a visual, practical and insightful guide offering informative and fun coverage with tips, accurate up-to-date information and the experiences of 'real' runners you can identify with. Find out how to get started with running and how to improve with specific sections on nutrition, marathon running and women's running (including exercising during and after pregnancy). Nell and co-author Lucy Waterlow, also an experienced runner, will equip you, whatever your age or ability, with the know-how to make running part of your life and help you learn to love training and competing as much as they do.

Shave minutes off your time using the latest in science-based training for serious runners. Advanced Marathonning has all the information you need to train smarter, remain injury free, and arrive on the start line ready to run the marathon of your life. Including marathon-pace runs and tempo runs, Advanced Marathonning provides only the most effective methods of training. You'll learn how to complement your run-

ing workouts with strength, core, flexibility, and form training; implement cutting-edge nutrition and hydration strategies and recovery techniques; and taper properly to reach peak performance. With easy-to-understand day-by-day training schedules for 18- and 12-week preparation for weekly distances of 55, 55 to 70, 70 to 85, and 85-plus miles, Advanced Marathonning is simply the most comprehensive and efficient approach to marathonning. If you're ready to achieve your personal best, this book is for you.

Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an "average" runner In her first book, popular runner blogger Amanda Brooks lays out the path to finding greater fulfillment in running for those who consider themselves "middle of the pack runners" -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. Run to the Finish is not your typical running book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to

love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as "Favorite hilarious marathon signs" and "Weird Thoughts We all Have at the Start Line," Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.

A comprehensive guide to get you ready for race day. According to the rule books, a marathon is 26.2 grueling yet exhilarating miles. Millions of people run marathons around the world. Many more millions dream of doing it. But novice or veteran runners, marathons require training and plenty of it. Certified marathon coach David Levine and dedicated marathoner Paula Petrella know how to get anyone in shape for the race and share the entire procedure in clear, jargon free language. ? Includes dozens of instructional photos. ? Practical advice that addresses the needs of men and women of all ages.

Now completely updated and revised--a new edition of the long-running marathon training guide that has helped more than

half a million people reach their goals. *Marathon: The Ultimate Training Guide* is among the bestselling running books of all time for many reasons, but above all others is this one: It works. Marathon running has changed in the seven years since the fourth edition--there are more runners than ever before, the popularity of half-marathons has grown immensely, and guidelines for best recovery and diet practices have changed. This revised fifth edition includes a new chapter on ultramarathons, along with material on recovery techniques, several new training programs, and advice on how to win a Boston qualifying race and improve your personal record. At its core remains Hal Higdon's clear and essential information on injury prevention, training, and nutrition. *Marathon* demystifies the marathon experience and allows each runner to achieve peak performance without anguish or pain, taking the guesswork out of marathon training, whether it's for your first or fiftieth. With Higdon's comprehensive approach and tried-and-tested methods, any runner will learn how to optimize their training and achieve their marathon goals.

*Your First Marathon - A Beginners Guide To Marathon Training, Marathon Preparation and Completing Your First Marathon* Would you like to know how to complete a Marathon? To many people, having the desire to run a Marathon is a mystery. But to others, it's one of the most natural activities in world. Running is one of the easiest sports to fit into a busy lifestyle. It doesn't cost you anything, you can do it anywhere and at any time. Most people will take up running to get fit or to lose weight initially. Once you get into it, and you've benefited from losing weight and getting fitter, you start to crave the desire of another challenge. "How far can you run?" or "How fast can you run?". Whatever the initial motivation, the desire to test your limits is usually the driving force for people wanting to run a marathon. Running a marathon is an epic challenge. On completion, you'll be part of a club with less than 1% of the world's population. When people think about running a Marathon, the idea becomes scary and overwhelming. That's normal! This book is designed to take a complete beginner through the process of running a Marathon from start to finish. Here's A Preview Of What You'll Learn... How To

Recommended by "Runner's World" magazine as "the best training book" by "the world's greatest coach," "Daniels' Running Formula" provides an expert training and racing blueprint for dedicated runners of all abilities.

This follow-up to the authors' "Run Like a Mother, Train Like a Mother" comprehensively covers how to train for a race, including training plans for four race distances (5K, 10K, half-marathon, and marathon) for both beginner and more experienced runners; the importance of recovery; pre- and post-race nutrition; strength training;

and more.

Long distance running is much like any other fitness training. If you want to improve, you need a good plan that has a progressive nature. If you are new to this game, you need a solid foundation to build on. Having a running program is not the only thing that you need. Sound advice and running tips should be taken from someone who has "walked the walk" ... Or in this case; "ran the run". Hi, my name is James Atkinson from [jimshealthandmuscle.com](http://jimshealthandmuscle.com). I'm a qualified fitness coach / personal trainer and I have a fair bit of running advice that I would like to share with you. When I was around 18 years old, I was a terrible runner! In fact, I failed the basic fitness test for army entrance on running alone, and I failed big time! Several years later, I was clearing 1.5 mile running circuits in 8 minutes and 22 seconds and could easily run a marathon any day of the week! I would like to share my knowledge and training experiences with you. If you are a beginner when it comes to running, this information will no doubt give you advice that will probably not have even crossed your mind before. If you are already a runner and are looking to make

more progression, you are also in the right place. I know that it is easy to get stuck on a training plateau, so I have also added some information and training methods to this book that will help you leave the plateau behind. Some of the chapters include: Why should you take my advice? My story... Accountability, Commit To Your Goal! Where to start Running style Breathing When to eat, what to eat Your bread and butter training "Steady state" Training on a track Running for time Running for distance Running with weight Dealing with blisters and chaffing Staying injury free Putting it all together and your training plan All of the information that I provide is written from my own experience as a long distance runner. I believe that by learning from my mistakes and my advice, you will hit your goals a lot quicker than making these mistakes yourself. Believe me; some of these mistakes can be very painful! As you will soon find out from some of the anecdotes that I am about to share with you. So grab your running shoes and let's get started!

From the best-selling author and renowned coach duo from Born to Run, a

fully illustrated, practical guide to running for everyone from amateurs to seasoned runners, about how to eat, race, and train like the world's best Whether you're ramping up for a race or recuperating from an injury, Born to Run 2 is a holistic program for runners of every stripe that centers on seven key themes: food, fitness, form, footwear, focus, fun, and family. The guide contains: On-the run recipes for race-ready nutrition Training regimen to help get you in shape and achieve your running goals Corrective drills to perfect your form Helpful shoe recommendations Advice about how to bring more joy into running Suggestions for finding a running community Christopher McDougall and Eric Orton bring all the elements together into an integrated action plan—the 90-Day Run Free training schedule—that provides everything you need to prepare for a mile-long fun run or a 100-mile ultramarathon. Full of helpful illustrations and full-color photos of the iconic first Copper Canyons race, Born to Run 2 is the perfect training companion for anyone who wants to get inspired about the sport again and learn the proven techniques to run smoother, lighter, and swifter.

Features instructions for runners of all ability levels on preparing for a marathon, including training schedules, advice on diet, defensive running strategies, and tips for staying motivated.

Describes twenty-four training programs designed for different sports, types of people, and goals

'A must-have for any woman targeting the distance' Runner's World Master the Marathon is a comprehensive guide to marathon training for women at all levels of running - beginner, intermediate and advanced. Packed with tips from the foremost female experts and coaches in running, Master the Marathon takes you through everything you need to know to be prepared for the 26.2 miles of the marathon, including:

Fuel up like 2017 New York City Marathon Champion Shalane Flanagan. From world-class marathoner and 4-time Olympian Shalane Flanagan and chef Elyse Kopecky

comes a whole foods, flavor-forward cookbook—and New York Times best-seller—that proves food can be indulgent and nourishing at the same time. Finally here's a cookbook for runners that shows fat is essential for flavor and performance and that counting calories, obsessing over protein, and restrictive dieting does more harm than good. Packed with more than 100 recipes for every part of your day, mind-blowing nutritional wisdom, and inspiring stories from two fitness-crazed women that became fast friends over 15 years ago, Run Fast. Eat Slow. has all the bases covered. You'll find no shortage of delicious meals, satisfying snacks, thirst-quenching drinks, and wholesome treats—all made without refined sugar and flour. Fan favorites include Can't Beet Me Smoothie, Arugula Cashew Pesto, High-Altitude Bison Meatballs, Superhero Muffins, Kale Radicchio Salad with Farro, and Double Chocolate Teff Cookies.

Combines Runner's World insights with the expertise of a professional sports nutritionist to counsel readers on how to reach weight-loss goals by simultaneously reducing calorie intake and increasing calories burned, sharing advice for such areas as

shopping, cooking and exercise. Original. 35,000 first printing.

Hal Higdon's Half Marathon Training offers prescriptive programming for all levels of runners. Not only will it help you learn how to get started with your training, but it will show you where to focus your attention, when to progress, and how to keep it simple.

Advises on how to run faster by running less, providing a variety of training programs tailored to qualifying times for the Boston Marathon and an overview of the 3PLUS2 program aimed at improving endurance.

Jeff's quest for the injury-free marathon training program led him to develop group training programs in 1978, and to author Runner's World articles which have been used by hundreds of thousands of runners of all abilities. His training schedules have inspired the second wave of marathoners who follow the Galloway RUN-WALK-RUN™, low mileage, three-day suggestions to an over 98% success rate. Jeff has worked with over 200,000 average people in training for specific goals. Jeff is an inspirational speaker to over 200 running and

fitness sessions each year. His innovative ideas have opened up the possibility of running and completing a marathon to almost everyone. Philosophically, Jeff believes that we were all designed to run and walk, and he keeps finding ways to bring more people into the positive world of exercise. A training guide for beginners, first-time marathoners, and women runners counsels readers on how to build speed and distance while maximizing one's performance and building on defensive running skills, in an updated edition by a senior writer for Runner's World magazine. Original.

The popularity of the marathon and half marathon continues unabated. Up and down the country people are signing up in their thousands, many to raise money for their favourite charity, others simply as a means of getting fit. Whatever the motive, these are testing endurance events requiring serious preparation. Now in its second edition, Marathon and Half Marathon - A Training Guide is essential reading for anyone intending to enter a half or full marathon. Written by a highly experienced personal trainer who has helped hundreds of runners achieve their own personal

goal, this acclaimed and best-selling book has everything you need, from advice on what to wear to staying fit during those long training sessions. This fully updated and revised edition features: New 'pre-hab' and core stability exercises to help prevent injury; the latest science on how, when and why to stretch; expert advice on how to use your time to train most effectively; a series of programmes aimed at beginner, intermediate and advanced runners and finally, inspirational real-life stories from runners. A fully updated second edition of this best-selling and highly acclaimed book, aimed at novices entering a full or half marathon for the first time in aid of their favourite charity and also aimed at the more experienced runners looking to improve their times. Fully illustrated with 126 colour images and diagrams.

From a national class marathoner who qualified for the Olympic Trials—valuable coaching on gearing up for and finishing a marathon. Bloch explains the benefits of cross-training for marathon runners, offers winning strategies specific to individual race courses, and more.

Andrew Kastor has taken the tried-and-true principles that all us pros follow and made them available and applicable for everyone. Andrew has certainly helped me along my journey--with his sage advice, his miracle-working hands on the massage table, and giving me a laugh when I needed it the most.

up our diets, heal our injuries, adapt to healthier footwear, and prepare for our dream challenge. Packed with advice and inspiring stories from runners who have made the transition, it includes: - A rock-solid food primer on optimum diet and power-packed On the Run recipes - Techniques for running with dogs and baby buggies to help you run with the whole family - 'Perfect Form' exercises that will overhaul your stride in less than ten minutes - A 90-Day Run Free Programme, designed to give everything you need to run faster and farther, forever.

Old-school marathon training plans ask runners to crank out 70 to 100 miles a week. It's no wonder those who make it to the start line are running ragged. Smart Marathon Training maps out a healthier, more economical approach to training that emphasizes quality over quantity. This innovative program eliminates junk miles, paring down training to three essential runs per week and adding a dynamic strength and cross-training program to build overall fitness. Runners will train for their best performance in less time and avoid the injuries, overtraining, and burnout that come from running too much.

Smart Marathon Training builds up a runner's body to resist injury. Runners gain the strength they need to run long using functional exercises that target the hips, glutes, and quads. Running is a full-body sport, so this training program also builds a strong core and upper body to avoid in-

juries that begin above the waist. No one fakes a marathon or half-marathon--everyone has to do the work. But Smart Marathon Training replaces long, grinding miles with low-impact cross-training. Horowitz outlines a cycling plan to complement run workouts, boosting base fitness

while saving runners' bodies for their best runs. With more than 75 detailed exercises plus six easy-to-follow training plans for half- and full marathons, Smart Marathon Training will get you to the start line feeling refreshed and ready to run your best race yet.
