The posthumous publication of Emmanuel Levinas's wartime diaries, postwar lectures, and drafts for two novels afford new approaches to understanding the relationship between literature, philosophy, and religion. This volume gathers an international list of experts to examine new questions raised by Levinas's deep and creative experiment in thinking at the intersection of literature, philosophy, and religion. Chapters address the role and significance of poetry, narrative, and metaphor in accessing the ethical sense of ordinary life; Levinas's critical engagement with authors such as Leon Bloy, Paul Celan, Vassily Grossman, Marcel Proust, and Maurice Blanchot; analyses of Levinas's draft novels *Eros ou Triple opulence* and *La Dame*

de chez Wepler; and the application of Levinas's thought in reading contemporary authors such as Ian McEwan and Cormac McCarthy. Contributors include Danielle Cohen-Levinas, Kevin Hart, Eric Hoppenot, Vivian Liska, Jean-Luc Nancy and François-David Sebbah, among others.

This book offers a fresh reflection on *The Book of Questions* by the French-Egyptian Jewish writer Edmond Jabès and its readings, and proposes to re-contextualize Jabès' enigmatic prose through the lens of the author's manuscripts. Addressed are the main prisms through which Jabès' oeuvre has been read since its publication in 1963: Jewishness, the Shoah, intertextuality with Midrash and Kabbalah, hermeticism and interpretation. It analyzes their shapes and their becoming in the work-in-progress, reveals the dynamics and the contexts of their evolution from the pre-texts to the text and beyond, and reflects on the relationship between creation, interpretation, and writing as a process. It seeks to rethink our reading of *The Book of Questions* and the poetics and hermeneutics of enigmatic writing. Much of world's documentary heritage

rests in vulnerable, little-known and often inaccessible archives. Many of these archives preserve information that may cast new light on historical phenomena and lead to their reinterpretation. But such rich collections are often at risk of being lost before the history they capture is recorded. This volume celebrates the tenth anniversary of the Endangered Archives Programme at the British Library, established to document and publish online formerly inaccessible and neglected archives from across the globe. From Dust to Digital showcases the historical significance of the collections identified, catalogued and digitised through the Programme, bringing together articles on 19 of the 244 projects supported since its inception. These contributions demonstrate the range of materials documented — including rock inscriptions, manuscripts, archival records, newspapers, photographs and sound archives — and the wide geographical scope of the Programme. Many of the documents are published here for the first time, illustrating the potential these collections have to further our understanding of history.

At a glance, high fashion and feminism seem unlikely partners. Between the First and Second World Wars, however, these forces combined femininity and modernity to create the new, modern French woman. In this engaging study, Mary Lynn Stewart reveals the fashion industry as an integral part of women's transition into modernity. Analyzing what female columnists in fashion magazines and popular women novelists wrote about the "new silhouette," Stewart shows how bourgeois women feminized the more severe, masculine images that elite designers promoted to create a hybrid form of modern that both emancipated women and celebrated their femininity. She delves into the intricacies of marketing the new clothes and the new image to middle-class women and examines the nuts and bolts of a changing industry—including textile production, relationships between suppliers and department stores, and privacy and intellectual property issues surrounding ready-to-wear couture designs. *Dressing Modern Frenchwomen* draws from thousands of magazine covers, advertisements, fashion columns, and features to uncover and untangle the fascinating relationships among the

fashion industry, the development of modern marketing techniques, and the evolution of the modern woman as active, mobile, and liberated.

"For the residents of Yopougon, everyday life is good. It is the early 1970s, a golden time work is plentiful, hospitals are clean and well equipped, and school is obligato-

ry. The Ivory Coast is as an island of relative wealth and stability in West Africa. For the teenagers of the town, though, worries are plentiful, and life in Yop City is far from simple. Aya tells the story of its nineteen-year-old heroine, the clear-sighted and bookish Aya, and her carefree and fun-loving friends Adjoua and Bintou. Navigating meddling relatives and neighbours, the girls spend a last summer of their childhood on the sun-warmed streets of Yop City sneaking out for dancing at open-air bars, strong solibra beer, chicken in peanut sauce and avoiding at all costs the scandal pages of the *Calamity Morning*. Aya is a captivating, colourful and hugely entertaining portrayal of an Africa we rarely see, spirited and resilient, and full of the sounds, sights and smells of a prosperous town and its varied inhabitants."

This volume appears now finally in English, sixty years after the death of its author, Lucien Tesnière. It has been translated from the French original into German, Spanish, Italian, and Russian, and now at long last into English as well. The volume contains a comprehensive approach to the syntax of natural languages, an approach that is foundational for an entire stream in the modern study of syntax and grammar. This stream is known today as dependency grammar (DG). Drawing examples from dozens of languages, many of which he

was proficient in, Tesnière presents insightful analyses of numerous phenomena of syntax. Among the highlights are the concepts of valency and head-initial vs. head-final languages. These concepts are now taken for granted by most modern theories of syntax, even by phrase structure grammars, which represent, in a sense, the opposite sort of approach to syntax from what Tesnière was advocating.
