In this now-classic commentary, first published in 1988 in the Pillar New Testament Commentary series, noted biblical scholar Leon Morris unravels Romans and the complexities of faith and interpretation associated with the epistle. In his introduction Morris deals with mat-

ters of authorship, destination, date, occasion, and contents in a brief but helpful way. The commentary proper consists of careful verse-by-verse exposition of the text along with full and informative footnotes. Though he interacts considerably with the immense body of literature on Romans, Morris's approach to the study of the epistle remains clearly his own. His thorough exegesis enables readers to understand Romans as one of the greatest and most spiritually significant books in the Bible.

Fake news is a type of hoax or deliberate spread of misinformation, be it via the traditional news media or via social media, with the intent to mislead in order to gain financially or politically. It often employs eye-catching headlines or entirely fabricated news-stories in order to increase readership and, in the case of internet-based stories, online sharing. In the latter case, profit is made in a similar fashion to clickbait and relies on ad-revenue generated regardless of the veracity of the published stories. Easy access to ad-revenue, increased political polarization and the ubiquity of social media, primarily the Facebook newsfeed have been implicated in the spread of fake news. Anonymously hosted websites lacking known publishers have also

been implicated, because they make it difficult to prosecute sources of fake news for libel or slander.

This is a thorough, full-scale English commentary on the Greek text of 1 and 2 Timothy and Titus. While author Ge-

orge W. Knight gives careful attention to the comments of previous interpreters of the text, both ancient and modern, his emphasis is on exegesis of the Greek text itself and on the flow of the argument in each of these three epistles. Besides providing a detailed look at the meanings and interrelationships of the Greek words as they appear in each context, Knight's commentary includes an introduction that treats at length the question of authorship (he argues for Pauline authorship and proposes, on the basis of stylistic features, that Luke might have been the amanuensis for the Pastoral Epistles), the historical background of these letters, and the personalities and circumstances of the recipients. Knight also provides two special excursuses: the first gathers together the information in the Pastorals and elsewhere in the New Testament on early church offices and leaders; the other excursus examines the motivations for conduct in Titus 2:1-10 with a view to their applicability to present-day situations.
