In the meantime, over 20 years have passed since I first came in to contact with SAP. After graduating, I started my first job at an international consulting company. During the introductory meeting with my boss, he asked me: "Do you want to do SAP?" - I can well remember that I just thought, "Hmm ... SAP ... What's that?" So I left his office without giving him an answer. I promptly went to speak to an experienced colleague: "Hey Jochen, tell me, should I do SAP?" His answer was firm and precise: "By all means do it, it's a life insurance." In these 20 years, I have been lucky enough to be involved in several international SAP projects, to help shape the processes of corporations and to meet many interesting people. In this book, I have summarized my SAP knowledge in a pointed and systematic way. My claim was to convey SAP knowhow that is helpful but not generally known.
