Our latest 4K TV Boxes work with most UK satellite dishes, so if you're switching from another satellite TV provider and/or you've already got a working dish and cabling installed, then connecting your new Freesat TV Box is as simple as plugging in your existing dish cables and following the on-screen instructions. If you are switching from SkyQ then your dish is likely to have a wideband LNB - that's the part that sticks out from the middle of the dish.

[Satellite Installation Information | Freesat](#)

Satellite dish installers are not always concerned about how and where the dish is installed on the property, as long as the job gets done. What this means is that unless they are told specifically where they can and cannot install the satellite equipment, they may drill holes in walls, fences, and even balcony railings and floors, damaging the property in the process.

[Landlord's Guide to Satellite Dishes | Real Property ...](#)

To sum up, follow these step by step guide to install satellite dish: Step 1 Screw the 6 wood or cement screws into the six half-opened holes in the surface of the DStv antenna mast at the desired location. The mounting location should be in an open place with no obstruction of the southern sky.

[How to Install a DSTV Dish: step by step guide - My Fresh ...](#)

A trained technician delivers and installs the satellite dish and antenna and connects everything. This service is warrantied for one year. However, if you have previous experience with satellite dish installation you may want to install the equipment yourself. This job requires specialized skills and tools.
