"Schema therapy represents a brilliant addition to the therapist's armamentarium of techniques. Building on cognitive therapy, the approach provides a means for dealing with many of the problems people face in their daily lives.

Schema therapy was developed by Jeffrey E. Young for use in treatment of personality disorders and chronic DSM Axis I disorders, such as when patients fail to respond or relapse after having been through other therapies (for example, traditional cognitive behavioral therapy). Schema therapy is an integrative psychotherapy combining theory and techniques from previously existing therapies ...
