The Year of Less In her late twenties, Cait Flanders found herself stuck in the consumerism cycle that grips so many of us: earn more, buy more, want more, rinse, repeat. Even after she worked her way out of nearly \$30,000 of consumer debt, her old habits took hold again. When she realized that nothing she was doing or buying was making her happy—only keeping her from meeting her goals—she decided to set herself a challenge: she would not shop for an entire year. **The Year of Less** documents Cait's life for twelve months during which she bought only consumables: groceries, toiletries, gas for her car. Along the way, she challenged herself to consume less of many other things

besides shopping. She decluttered her apartment and got rid of 70 percent of her belongings; learned how to fix things rather than throw them away; researched the zero waste movement; and completed a television ban. At every stage, she learned that the less she consumed, the more fulfilled she felt. The challenge became a lifeline when, in the course of the year, Cait found herself in situations that turned her life upside down. In the face of hardship, she realized why she had always turned to shopping, alcohol, and food—and what it had cost her. Unable to reach for any of her usual vices, she changed habits she'd spent years perfecting and discovered what truly mattered to her. Blending Cait's compelling story with inspiring insight and practical guidance, **The Year of Less** will leave you questioning what you're holding on to in your own life—and, quite possibly, lead you to find your own path of less. The story of a runaway slave girl and her dangerous journey through the murky underworld of Roman Britain, by Carnegie Medal-winning author Tanya Landman. From Tanya Landman, author of the 2015 Carnegie Medal winner *Buffalo Soldier*,

comes a heart-stopping tale of love, corruption and the power of choice. Blood on her lips. Blood on her tongue. Blood that is not her own. Cassia does not fear to die, but for her - for a slave who has maimed her master - there are worse things than death. Yet the mighty Roman Empire has its limits. Beyond her master's estate, beyond the river, far to the north stands Hadrian's Wall. And beyond the wall? Freedom. With dogs on her trail and a bounty on her head the journey seems impossible. But then Cassia meets Marcus - slick, slippery, silver-tongued - a true and perfect son of Rome. And her only hope. The 1970s heartthrob who remains just as popular as ever finally reveals all in this 'emotionally raw and startlingly candid autobiography' By the time Donny Osmond's first solo single, 'Puppy Love', hit Number One in the summer of 1972, the 14-year-old was already a veteran of TV and Las Vegas. Part of the hitmaking family The Osmonds, and famed for his duets with sister Marie, with whom he went on to make the hugely popular series *The Donny & Marie Show*, Donny Osmond was THE teen pin-up of the 1970s. But after punk, the

clean-cut approach wasn't so popular, and record companies felt that there would be no interest in the grown man. In this revealingly honest memoir, Donny Osmond reveals how he kept faith, how he battled against a debilitating social phobia and made a hugely successful comeback, not just as a recording artist, but also as a star of stage in a record-breaking musical. He continues to tour regularly and remains hugely popular to his fans around the world. This book shows how he kept on going, and will be an inspirational read to all.

Alternative Investments: A Primer for Investment Professionals provides an overview of alternative investments for institutional asset allocators and other overseers of portfolios containing both traditional and alternative assets. It is designed for those with substantial experience regarding traditional investments in stocks and bonds but limited familiarity regarding alternative assets, alternative strategies, and alternative portfolio management. The primer categorizes alternative assets into four groups: hedge funds, real assets, private equity, and structured products/derivatives. Real assets in-

clude vacant land, farmland, timber, infrastructure, intellectual property, commodities, and private real estate. For each group, the primer provides essential information about the characteristics, challenges, and purposes of these institutional-quality alternative assets in the context of a well-diversified institutional portfolio. Other topics addressed by this primer include tail risk, due diligence of the investment process and operations, measurement and management of risks and returns, setting return expectations, and portfolio construction. The primer concludes with a chapter on the case for investing in alternatives.

Dr. Natasha Campbell-McBride set up The Cambridge Nutrition Clinic in 1998. As a parent of a child diagnosed with learning disabilities, she is acutely aware of the difficulties facing other parents like her, and she has devoted much of her time to helping these families. She realized that nutrition played a critical role in helping children and adults to overcome their disabilities, and has pioneered the use of probiotics in this field. Her willingness to share her knowledge has resulted in

her contributing to many publications, as well as presenting at numerous seminars and conferences on the subjects of learning disabilities and digestive disorders. Her book *Gut and Psychology Syndrome* captures her experience and knowledge, incorporating her most recent work. She believes that the link between learning disabilities, the food and drink that we take, and the condition of our digestive system is absolute, and the results of her work have supported her position on this subject. In her clinic, parents discuss all aspects of their child's condition, confident in the knowledge that they are not only talking to a professional but to a parent who has lived their experience. Her deep understanding of the challenges they face puts her advice in a class of its own.

Revised and updated edition of the Globe and Mail and Amazon bestselling book "If you want to understand war in the 21st century, read this to get

part of the story." — Robert Spalding, US Brigadier General (retired) "This book reads like a thriller and is stranger than fiction. Gripping, racy and exciting, it is difficult to put down. A tale of gambling, narcotics, tycoons, criminal gangs and Communists. And the shocking part is that it's not a novel, it is all true." — Benedict Rogers, CEO Hong Kong Watch In 1982 three of the most powerful men in Asia met in Hong Kong. They would decide how Hong Kong would be handed over to the People's Republic of China and how Chinese business tycoons Henry Fok and Li Ka-Shing would help Deng Xiaoping realize the Chinese Communist Party's domestic and global ambitions. That meeting would not only change Vancouver but the world. Billions of dollars in Chinese investment would soon reach the shores of North America's Pacific coast. B.C. government casinos became a tool for global criminals to import deadly narcotics into Canada and launder billions of drug cash into Vancouver real estate. And it didn't happen by accident. A cast of accomplices — governments hungry for revenue, casino, and real estate compa-

nies with ties to shady offshore wealth, professional facilitators including lawyers and bankers, an aimless RCMP that gave organized crime room to grow — all combined to cause this tragedy. There was greed, folly, corruption, conspiracy, and wilful blindness. Decades of bad policy allowed drug cartels, first and foremost the Big Circle Boys — powerful transnational narco-kingpins with ties to corrupt Chinese officials, real estate tycoons, and industrialists — to gain influence over significant portions of Canada's economy. Many looked the other way while B.C.'s primary industry, real estate, ballooned with dirty cash. But the unintended social consequences are now clear: a fentanyl overdose crisis raging in major cities throughout North America and life spans falling for the first time in modern Canada, and a runaway housing market that has devastated middle-class income earners. This story isn't just about real estate and fentanyl overdoses, though. Sam Cooper has uncovered evidence that shows the primary actors in so-called "Vancouver Model" money laundering have effectively made Canada's west coast a headquarters

for corporate and industrial espionage by the CCP. And these ruthless entrepreneurs have used Vancouver and Canada to export their criminal model to other countries around the world including Australia and New Zealand. Meanwhile, Cooper finds that the RCMP's 2019 arrest of its top intelligence official, Cameron Ortis, raises many frightening questions. Could Chinese transnational criminals and state actors targeting Canada's industrial and technological crown jewels have gained protection from the Mounties? Could China and Iran have insight into Canada's deepest national security secrets and influence on investigations? Ortis had oversight of many investigations into transnational money laundering networks and insight into sensitive probes of suspects seeking to undermine Canada's democracy and infiltrate the United States, according to the evidence Cooper has found. Wilful Blindness is a powerful narrative that follows the investigators who refused to go along with institutionalized negligence and corruption that enabled the Vancouver Model, with Cooper drawing on extensive interviews with the whistle-blowers; thou-

sands of pages of government and court documents obtained through legal applications; and large caches of confidential material available exclusively to Cooper. The book culminates with a shocking revelation showing how deeply Canada has been compromised, and what needs to happen, to get the nation back on track with its "Five Eyes" allies.

THE TOP 10 SUNDAY TIMES BESTSELLER Short-listed for the FT Business Book of the Year Award 2019 'Easily the most important book to be published this century. I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas.' - Zadie Smith, *The Guardian* The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control us. The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our

behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in, and what we decide now will shape the rest of the century. Our choices: allow technology to enrich the few and impoverish the many, or harness it and distribute its benefits. *The Age of Surveillance Capitalism* is a deeply-reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.

Using deposits recently excavated from the Panayia Field, this volume substantially revises the absolute chronology of Corinthian Hellenistic pottery as established by G. Roger Edwards in *Corinth VII.3* (1975). This new research, based on quantitative analysis of over 50 deposits, demonstrates that

the date range for most fine-ware shapes should be lowered by 50-100 years. Contrary to previous assumptions, it is now possible to argue that local ceramic production continued in Corinth during the interim period between the destruction of the city in 146 B.C. and when it was refounded as a Roman colony in 44 B.C. This volume includes detailed shape studies and a comprehensive catalogue. With its presentation of this revised "Panayia Field chronology," *Corinth VII.7* is a long-awaited and much-needed addition to the Corinth series.
