“Stellarium Mobile is a planetarium app that shows exactly what you see when you look up at the stars. Identify stars, constellations, planets, comets, satellites (such as the ISS), and other deep sky objects in real-time in the sky above you in just a few seconds, just by pointing the phone at the sky. With Sky Guide, there is no fumbling about with confusing star charts, compasses and flashlights. Simply hold it overhead and Sky Guide automatically adjusts to your viewing direction so you can easily identify stars, planets, constellations and more.
