Curing: Technically, cold process soap is safe to use after a few days. However, we recommend letting the soap cure for 4-6 weeks in a cool, dry place with good airflow. Excess water will evaporate, which creates harder and milder bars that last longer in the shower. It's definitely worth the wait. Lye Calculator: This tool makes formulating cold process recipes easy. All you have to do is enter the oil weight or percentage and the Lye Calculator will give you the lye and liquid amount you ...
