Charles Taylor's Sources of the Self has at least two objectives. On the one hand, it traces the historical sources of the modern understanding of selfhood. On the other hand, and perhaps more important, Sources of the Self aims to contribute to the reconstruction of that same understanding of selfhood. Specifically, it promotes the view that our description of the self should be radically revised so as to take seriously the interdependent claims that values have objective reality and ...

He argues that, properly understood, our modern notion of the self provides a framework that more than compensates for the abandonment of substantive notions of rationality. The major insight of Sources of the Self is that modern subjectivity, in all its epistemological, aesthetic, and political ramifications, has its roots in ideas of human good. After first arguing that contemporary philosophers have ignored how self and good connect, the author defines the modern identity by describing ...

Nearly 20 years earlier, Taylor wrote the book I am reviewing here, "Sources of the Self" (1989). This book is, if anything, more difficult to read than its successor. The book addresses the same complex of questions as does "The Secular Age", but from the other end. Rather than focusing on God and secularization, the book describes "the making ...

Sources of the Self Quotes Showing 1-3 of 3 "To know who I am is a species of knowing where I stand. My identity is defined by the commitments and identifications which provide the frame or horizon within which I can try to determine from case to case what is good, or valuable, or what ought to be done, or what I endorse or oppose.

The typical culprit for the Classical Modern conception of the Self, and Taylor blames this man as well, is Rene Descartes. On this reading, Descartes suggested that everything begins with the Self as the subject of experience in a world full of other persons, objects, and events.

Sources of the Self is a work of moral philosophy which reaches beyond practical considerations concerning right and wrong. Charles Taylor is here in search of a comprehensive understanding of what it means to be a human being, holding that only such an understanding as this can give moral philosophy the grounding it needs to operate persuasively and coherently.

The individual self consists of attributes and personality traits that differentiate us from other individuals. Examples include introversion or extroversion. The relational self is defined by our relationships with significant others. Examples include siblings, friends, and spouses.
