This paper was selected for presentation by an IADC/SPE program committee following review of information contained in an abstract submitted by the author(s). Contents of the paper have not been reviewed by the International Association of Drilling Contractors or the Society of Petroleum Engineers and are subject to correction by the author(s).

IADC/SPE-SPE-189680-MS-MS Automation Provides Unique ...

A new version of the Babington nebulizer is described where dry aerosols from solutions and powder samples can be introduced into air-acetylene and nitrous oxide-acetylene flames, as well as ICP torches. A special burner is described in which the premixed burner gases are completely separated from the sample introduction into the flame plasma.

A new premixed chemical burner for emission and absorption ...

Abstract: This talk will ... The talk will discuss multiple examples where this technique was used and some of the insights gained. ... He is an active SPE member and gives multiple industry talks across North America every year and just recently received the SPE regional technical award for Completions.

The new approach will reduce the uncertainty in the mud-weight window ahead of bit, and the paper presents testing of the new workflow on a North Sea dataset. Methods, Procedures, Process: For the 3D pressure modeling, a basin modeling software approach is used, where the pressure compartments in the study area are defined by faults, interpreted from seismic.

2018 IADC/SPE Drilling Conference abstracts - Drilling ...

Methods: Almost all of the HPLC methods proposed were based on the preliminary extraction of topiramate from the sample using organic solvents. In our study, the conditions for purifying topiramate through solid-liquid technique in disposable cartridges (SPE) packed with C18 reversed phase were examined and optimised.

Therapeutic Drug Monitoring of Topiramate With a New HPLC ...
