Soay sheep - Wikipedia

Islands St Kilda is an isolated archipelago of volcanic islands that lie 40 miles to the west of the main archipelago chain. With the highest sea cliffs in Britain, St Kilda is the most important sea bird breeding station in north west Europe.

St Kilda (Scottish Gaelic: Hiort) is an isolated archipelago situated 64 kilometres (40 mi) west-northwest of North Uist, in the North Atlantic Ocean. It contains the westernmost islands of the Outer Hebrides of Scotland. The largest island is Hirta, whose sea cliffs are the highest in the United Kingdom.

St. Kilda is an archipelago in the Western Isles of Scotland, some 40 miles from the next nearest inhabited island. For more than 2000 years the island was inhabited by a small population, eking out an existence in near splendid isolation in the harsh conditions of the North Atlantic.

The archipelago of St Kilda is situated 45 miles off the off the coast of Harris, an already remote island by UK standards in the Outer Hebrides. The Island has been designated a UNESCO world heritage site but due to its inaccessibility only receives 2500 visitors a year. Approaching St Kilda in heavy seas and rain.

I organised this trip 10 months ago through Kilda Cruises to surprise my dad as a joint Birthday/Xmas present. I planned it so that the Monday/Tuesday of our trip on Lewis and Harris was flexible to make way for the St Kilda trip. The monday sailing was cancelled due to strong ...

St Kilda - Scot Islands

The schooner Lady of St Kilda was named in honour of Lady Grange, who was imprisoned on the island of Hirta, the largest island in the St Kilda archipelago, on the western edge of Scotland, by her husband in 1734-40.
