The beginners guide to stargazing | Forestry England

Stargazing Live astronomy guides and downloads. Eclipse guide Sun and eclipse

facts plus a step-by-step guide to make your own solar viewer (PDF 0.9MB)

This is the download page for the free guide "Stargazing 101: The Night Sky for Beginners". This 35-page PDF guide takes you through the basics of how the sky moves from day to day and how to find the bright stars and major constellations in all four seasons. It includes on-page maps and diagrams to help you find your way around the major guideposts of the heavens, as well as tips on how to read a star chart.

Research in the European Journal of Ecopsychology found that stargazing encourages "feelings of personal growth, positive emotions and a variety of transcendent thoughts and experiences", and, if...

A guide to stargazing - an expert explains how to stargaze

Stargazing in the UK wants to bring new guides, reviews and articles about stargazing and amateur astronomy for beginners.

Stargazing is just what it sounds like: simply observing the stars. But astronomy goes deeper. It's the science of observing objects in space and the universe as a whole. It's safe to say that for...

BBC Stargazing Live Activity Pack

Your smartphone is one of your best stargazing friends - download either the Night Sky app or Sky Map, set your phone to night vision and simply point your

phone at the sky. It will show you the constellations you're looking at by identifying the stars using an inbuilt GPS. If you don't have a smartphone then get yourself a star chart. They do the job perfectly well, simply set the date and time to show what is in the night sky. Bring the night to life with our beginner's guide to stargazing. See the forest at night in a whole new light! Written in association with BBC Sky at Night Magazine and packed with fantastic activities for all the family, get your hands on this free guide to learn about constellations, try star navigation, play night-games and become a Forest-Star. What's included? Stargazing is one of the great, unsurpassable pleasures of life, and one of the unforgettable highlights of a Forest Holiday, but how can you make the most of this wonderful opportunity? We caught up with enthusiastic astronomer Steve Bowden to get some tips: what to take, where to look, and how to identify those celestial bodies. Start with the white sticky dots to create the stars in Ursa Minor, The Plough and Cassiopeia. 3Next, use the yellow sticky dots to make the other constellations.

4Use the long, thin stickers to...

BBC Stargazing Live Star and Moon Guide Stargazing is a magical way to bring science alive and to experience the beauty of our natural world. Looking up at the great canopy of space is a powerful experience, which everyone can enjoy. What's more, stargazing is no.27 on our list of '50 things to do before you're 11¾'. Grab your coats, find a cosy spot to lie down in your back garden or look out of your window. The longer you look up, the more stars you'll discover.
