Get the most out of your textbook with this helpful study tool! Corresponding to the chapters in Introduction to Clinical Pharmacology, 8th Edition, by Marilyn Edmunds, this study guide offers a rich variety of learning resources to help you master nursing pharmacology and medication safety. Worksheets in each chapter include review questions, along with math review, dosage calculation exercises, and research and critical thinking activities emphasizing

clinical decision-making and prioritization. Correlation to the Introduction to Clinical Pharmacology textbook and Evolve resources reinforces key safety content such as drug interactions, allergic reactions, adverse drug responses, care of the older adult, and cultural considerations. Review sheets help you remember common measures, formulas, and difficult concepts. A variety of learning activities includes short answer, matching, multiple-choice, multiple-select, math review, dosage calculation, and critical thinking exercises. Answers for all activities and questions may be found on the Evolve companion website. Blank medication cards allow you to fill in important drug information to take along to clinicals. Learning objectives and cross references to related materials are provided at the beginning of each chapter. NEW! Increased emphasis on critical thinking, clinical decision-making, and prioritization encourages you to apply your knowledge with new research and practice application activities at the end of every chapter. NEW! Updated questions and activities reflect the new content and emphases in the Edmunds textbook, Introduction to Clinical Pharmacology, 8th Edition.

Student-friendly and easy to use, the Study Guide for Introduction to Medical-Surgical Nursing, 5th Edition, is designed to help you master content and evaluate your progress through practical, useful exercises and activities, including a wealth of multiple-choice and alternate-format questions. This edition places an increased emphasis on higher-level application questions, including exercises to encourage practice in setting priorities, to prepare you to transfer your knowledge of medical-surgical concepts to patient care in the clinical setting. Helps you hone critical thinking skills essential for success on licensure exams and in clinical practice. Reinforces textbook content and provides ample opportunity for self-assessment with a wide variety of learning activities, including matching (key term and vocabulary review), completion, listing, labeling (illustrations), ranking/ordering, and application questions for textbook nursing care plans. Includes textbook page references, making self-assessment easier and faster. Emphasizes application of nursing concepts with new knowledge and comprehension exercises and activities that ask you to apply your knowledge to patient care situations. Features a new section at the end of each chapter: Challenge Yourself! Getting Ready for the NCLEX includes both standard multiple-choice and alternate-format questions (over 1,800) that test your knowledge of chapter content while providing practice for the Boards. Provides valuable practice in prioritizing (deciding what to do first) and assignment (giving specific tasks to health care providers who may be supervised by LPNs) -- skills that are essential for providing effective nursing care and are covered on the NCLEX-PN Examination. Links you to online Evolve resources, where you'll find an additional set of review questions, encouraging utilization of and familiarity with an electronic format.

"The Study Guide for the Fundamentals of Health Information Management, 2nd edition, is a lovely complement to the textbook readings. Using the study guide allows for an overview of key aspects of each chapter and provides a quick review in the form of multiple choice, short answer, and true/false questions. Case studies have been included and allow the student to go beyond the basic knowledge/understanding level and apply their critical thinking and analysis skills. Instructors can use the study guide to direct class discussion on specific topics of interest." Kelly Abrams, Ph.D. Candidate, CHIM VP, Canadian College of Health Information Management

Includes listing, matching, labeling, completion, and multiple-choice exercises Text page references accompany each question

Leifer's Study Guide for Introduction to Maternity and Pediatric Nursing is a rich resource that enhances your comprehension and application of material from every chapter of the textbook. With a variety of learning activities, critical thinking exercises, case studies, and review questions, this study guide reinforces your mastery of the essential maternity and pediatric nursing concepts and skills you need to pass the NCLEX-PN® Examination and succeed in your nursing career. NCLEX exam-style multiple-choice review questions at the end of each chapter test basic chapter knowledge as well as ask for appropriate nursing actions, what the nurse should expect in terms of medical care of the patient, and what complications the patient is at risk of developing. Case Studies and Applying Knowledge activities provide additional opportunities to apply learned information to clinical care. Thinking Critically activities require you to apply what you've learned in the textbook to new situations and draw conclusions based on that knowledge. Learning activities include matching, labeling, and completion exercises to help you learn basic concepts of maternity and pediatric nursing. Crossword puzzles in selected chapters are a nice way to change up the format when testing comprehension of terms and concepts. Answer key is located on the student's Evolve website.

Emphasizing safe and effective drug administration, Introduction

to Clinical Pharmacology, 10th Edition, helps you understand the principles of pharmacology and prevent medication errors. It promotes safety by showing how drugs and drug classes work, so you can understand why drugs are given, as well as the adverse effects and drug interactions that may occur. A thorough nursing process section with each drug class outlines the nurse's role when administering drugs. The updated Get Ready for the Next Generation NCLEX® Examination! feature offers case studies with Next Generation NCLEX-format questions to help you prepare for the new licensure examination. Ideal scope of content and readability for LPN/LVN programs includes basic, need-to-know pharmacology content. Safety Alert boxes highlight important nursing considerations for safe medication administration and monitoring. Lifespan Considerations boxes for children and older adults draw attention to information that would be especially important when giving a specific drug to patients of those age groups. A focus on understanding drug classes helps students understand the actions and uses of drug classes and provides a framework for safe, effective practice as new drugs are introduced to the market. Video clips on medication administration procedures provide students with a visual reference for safe medication administration. Key terms with phonetic pronunciations and text page references help improve students' terminology and language skills before they enter clinical practice. Essential content is highlighted throughout the text, as in all of Elsevier's LPN Threads textbooks, with features such as Top Tips for Safety, Memory Joggers, and Lifespan Considerations boxes. NEW! Get Ready for the Next Generation NCLEX® Examination! section includes key points, review questions, and case studies with Next Generation NCLEX-format questions to prepare students for the new licensure examination. NEW! Reorganized chapters break up lengthy content and more logically present pharmacological content by body system or major disorder. UPDATED! Coverage of newly approved and updated pharmaceutical treatments and drugs prepares students for practice.
