Summer training report in civil engineering

Training and Development. Training aims at increasing the aptitudes, skills and abilities of workers to perform specific job. It makes employees more effective and skillful. In present dynamic world of business training is more important there is an ever present need for training men. So that new and changed techniques may be adopted.

Chapter 2: Practical Training 2.1 Identifying Current Projects and Following up the Work A first step in any training program is to become familiar with the work environment and how it flows. About eight days at the beginning of the training period were spent on only monitoring how the staff around me works and what they work on.
