When Ford teamed up with Cosworth Engineering to breathe life onto its humdrum Sierra, few knew it would be the birth of a motoring legend. Through circuit racing and supercar-humbling on-road ability, the 1985 Sierra RS Cosworth quickly became a household name. A practical four-seater boasting 204bhp from its two-litre turbocharged powerplant, the RS Cosworth's massive performance was equalled only by an extroverted rear wing designed for high-speed stability.. While motorsport machines scooped innumerable victories and increasingly powerful engines, in 1987 Ford homologated a yet-more-spectacular Sierra - the 224bhp RS500. It instantly became a desirable collector's piece.. Other RS Cosworths soon followed. The restrained four-door Sierra Sapphire RS Cosworth of 1988 was Ford's vision of a 150mph executive express; two years later, its four-wheel-drive successor returned the firm to rallying. By 1992, Ford had squeezed the 4x4's running gear into a shorter Escort body, complete with 227bhp engine and ever-more-aggressive aerodynamic aids. The limited-edition Monte Carlo came in 1994, followed by the final RS Cosworth - a revised Escort with smaller turbocharger and user-friendly appeal. Production ceased in 1996. Today, each model has a loyal

following among motorsport fans and fast Fords enthusiasts. And as the cars become increasingly sought-after, so too does the pursuit of perfection. This book examines RS Cosworth authenticity, outlining standard specifications alongside in-depth colour photography of outstanding examples of the breed. From body panels and trim to turbochargers and tyres; from interior fabrics and paint schemes to shock absorbers and stickers, Ford's factory-original fitments are covered in comprehensive detail.

THE value of this little book does not consist in elegant diction according- to the rules of composition, but in its remarkable contents. The former will not be expected from the author, who is not a scholar. On the other hand his narrative, which, however, is quite readable, is to the reader a guaranty of his sincerity, not to mention the fact that he writes for the most part as an eye-witness. As he did not strictly aim at relating- all matters of the same kind consecutively, his work has received some variety which is, perhaps, more agreeable to the reader. What the author narrates with simplicity and without ornamentation of the various Europeans and the American savages, their manners and customs, their laws, domestic and religious institutions, is for the most part new and of such a nature that thinking readers will be glad to perceive in it a special mingling of the European and American climate, of the customs of the Old and the New World, and of a civilized people living in part in natural freedom. The communications from the realm of nature, the animals, plants, etc., will no less arrest the attention of the reader, inasmuch as the

wise Creator has placed an entirely new theatre of his miracles before the eyes of rational man. But the most important part of this publication will no doubt be found in the account of the fate that awaits most of the unfortunate people who leave Germany to seek uncertain prosperity in the New World, but find instead, if not death, most surely an oppressive servitude and slavery. Nothing has been changed in the author's work, except that some notes from other writers of repute, confirming the author's narrative, have been added on the margin, and that the orthography has been made to conform to that in general use. The little work is herewith warmly recommended to the reader.
