JURNOD - FARRELL RICE

When Gaby faked a pregnancy to challenge stereotypes, she also changed her life. A compelling memoir from an inspirational teenage activist. Growing up, Gaby Rodriguez was often told she would end up a teen mom. After all, her mother and her older sisters had gotten pregnant as teenagers; from an outsider's perspective, it was practically a family tradition. Gaby had ambitions that didn't include teen motherhood. But she wondered: how would she be treated if she "lived down" to others' expectations? Would everyone ignore the years she put into being a good student and see her as just another pregnant teen statistic with no future? These questions sparked Gaby's high school senior project: faking her own pregnancy to see how her family, friends, and community would react. What she learned changed her life forever—and made international headlines in the process. In The

Pregnancy Project, Gaby details how she was able to fake her own pregnancy—hiding the truth from even her siblings and boyfriend's parents—and reveals all that she learned from the experience. But more than that, Gaby's story is about fighting stereotypes, and how one girl found the strength to come out from the shadow of low expectations to forge a bright future for herself.

Finally! A cookbook for people who have had enough with rules and restrictions and are ready for delicious food that makes them feel good. In her follow-up to her breakout success *What's Gaby Cooking*, Gaby Dalkin reveals the secret to a happy life: balance. *Eat What You Want* reï→ects how Gaby eats in real life, and for her, balancing moderation and indulgence is everything. No deprivation, no "bad foods" list. The only rule? Enjoy your food. Whether you are looking for lighter dishes filled with tons of fresh

fruits and veggies (like a Cauliflower Shawarma Bowl or lemony Tahini Broccolini), or soul-soothing dishes like (Ham and Cheese Croissant Bread or Strawberry Crispy Cobblers), Gaby has you covered. All told, *Eat What You Want* is an invitation/permission slip/pep rally for you to let go of all the noise around what you choose to eat. Choose joy! Choose fun! Choose no apologies or excuses. But most of all, choose whatever makes you happy.

From Paralympic ski racer and YouTube star, Josh Sundquist, comes an always-funny (and sometimes-awkward) memoir about teenage misadventures. When Josh was twenty-five years old, it came to his attention that he never had a girlfriend. At the time, he was actually under the impression that he was in a relationship, so this bit of news came as something of a shock. Why was Josh still single? To find out, he tracked down each of the girls he had tried to date since middle school and asked them straight up: What went wrong? The results of Josh's semi-scientific investigation are in your hands. From a disastrous Putt-Putt date involving a backward prosthetic foot, to his introduction to CFD (Close Fast Dancing), and a misguided "grand gesture" at a Miss America pageant, this story is about looking for love—or at least a girlfriend—in all the wrong places. Poignant, relatable, and totally hilarious, this memoir is for anyone who has ever wondered, "Is there something wrong with me?" (Spoiler Alert: the answer is no.)

Kelle James ran away from an abusive home at the age of fifteen to the best place she could think of. New York City. She was going to be a model, rich, famous, and she was going to find people who treated her right. She had no idea what was in store for her and within three days she was homeless and broke. What follows

is her exceptional story of trying to make it on her own with nothing to her name and no one to trust. She endures a string of people, mostly men, who take advantage of her youth and beauty, many disappointments and rejections, and the most famous murder trial of the 1970s. This is the story of a girl losing herself before finding her way in the city that never sleeps.

Of all the writing that emerged from the existentialist movement, Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact. It is at once a work of anthropology and sociology, of biology and psychoanalysis, from the pen of a writer and novelist of penetrating imaginative power. *THE SECOND SEX* stands, five decades after its first appearance, as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

Named to Kirkus Reviews Best Books of 2014 Named to School Library Journal Best Books of 2014 Gabi Hernandez chronicles her last year in high school in her diary: college applications, Cindy's pregnancy, Sebastian's coming out, the cute boys, her father's meth habit, and the food she craves. And best of all, the poetry that helps forge her identity. July 24 My mother named me Gabriella, after my grandmother who, coincidentally, didn't want to meet me when I was born because my mother was unmarried, and therefore living in sin. My mom has told me the story many, many, MANY, times of how, when she confessed to my grandmother that she was pregnant with me, her mother beat her. BEAT HER! She was twenty-five. That story is the basis of my sexual education and has reiterated why it's important to wait until

you're married to give it up. So now, every time I go out with a guy, my mom says, "Ojos abiertos, piernas cerradas." Eyes open, legs closed. That's as far as the birds and the bees talk has gone. And I don't mind it. I don't necessarily agree with that whole wait until you're married crap, though. I mean, this is America and the 21st century; not Mexico one hundred years ago. But, of course, I can't tell my mom that because she will think I'm bad. Or worse: trying to be White. Isabel Quintero is an award-winning writer from the Inland Empire of Southern California. Tony Webster and his clique first met Adrian Finn at school. Sex-hungry and book-hungry, they would navigate the girl-less sixth form together, trading in affectations, in-jokes, rumour and wit. He's had a career and a single marriage, a calm divorce. He's certainly never tried to hurt anybody. Memory, though, is imperfect. It can always throw up surprises, as a lawyer's letter is about to prove. Now a major film

"Sophie Ellis-Bextor shares her experiences, insights and reflections on men, music and motherhood. Sophie Ellis-Bextor's kitchen discos became a source of much needed escapism, catharsis and sequined joy for a swathe of the population during lockdown. From knackered mothers and fed up fathers, to cooped up partiers with nowhere to go, Sophie's gloriously chaotic Friday kitchen performances have cheered and revived us. Now Sophie is bringing that same mixture of down to earth candour and optimistic sparkle to her first book. Part memoir, part musings, Sophie will write about the conjuring act of adulthood and motherhood and how her experience of working while raising her five sons has given her the inescapable lesson of how to navigate life in the face of failure and imperfection. Covering relationships, good enough parenting, the importance of delusion and dancing, Sophie writes about the things that take on greater importance as life becomes more complicated. From the non negotiables (solitude, music, glitter) to the unimportant (clean hair, deadlines, appropriate behaviour), this is a book about learning from our experiences and not being afraid to smash a few plates for the sake of what we actually need want and value"--Publisher's description.
