This book presents both personal and biblical reasons why God still speaks and heals today.

Highly respected New Testament scholar Craig Keener is known for his meticulous and comprehensive research. This commentary on Acts, his magnum opus, may be the largest and most thoroughly documented Acts commentary available. Useful not only for the study of Acts but also early Christianity, this work sets Acts in its first-century context. In this volume, the first of four, Keener introduces the book of Acts, particularly historical questions related to it, and provides detailed exegesis of its opening chapters. He utilizes an unparalleled range of ancient sources and offers a wealth of fresh insights. This magisterial commentary will be a valuable resource for New Testament professors and students, pastors, Acts scholars, and libraries.

Who were the Puritans? What did they seek to achieve? What were their successes and failures? Are they of any importance to Christians today? We firmly believe that all Christians need to discover the important story of how these men and women sought to follow Jesus Christ. Their convictions resulted in a brave and joyful faith, and the writing they have left us on the Christian life continues to be a rich resource for our own discipleship. Meeting the Puritans by listening to them has enriched both of us more than we can express. And so, in *The Glory of Grace*, we want to introduce you to people who had a deep love for Jesus Christ and a great vision for the Christian life. We all have much to learn. Each chapter contains a concise introduction followed by carefully selected excerpts from key Puritan works, together with suggestions for further reading.

'Eric Liddell deserves a definitive biography. This is it.' Sunday Times, Books of the Year Easter. Higher. Stronger. No one has embodied the ideals of the Olympic movement quite like Eric Liddell, star of the Oscar-winning film *Chariots of Fire*. After refusing to compete on religious principle in the event in which he was favourite, the 100 metres, at the 1924 Games in Paris, Liddell won an astonishing gold medal in the 400 metres. But instead of pursuing a path of global fame and fortune, he chose to follow his calling as a missionary in the country of his birth, China, a land which then fell under the iron grip of a brutal Japanese army. Liddell became the inspirational leader of the work camp in which he, like many thousands, was interned, and for the Glory is the full story of his life, of his family, of his fellow prisoners and the terrible hardships and atrocities they experienced in the Far East. This is the tale of a sporting icon, a man of honour and principle who paid the ultimate sacrifice while becoming the moral centre of an otherwise unbearable world.

A personal, political, and religious journey from Evangelical Christian faith and conservative politics to solidarity with the poor and advocacy for anti-war, anti-racism, and Palestinian rights After serving for five years as a pastor in a remarkable Black church, Donald Wagner comes to fully understand the original sin of racism. As his journey continues, he encounters another marginalized people—the Palestinians—and witnesses their struggle for justice and equality. Touched by their resilience and fight against injustice, he leaves the pastorate to assume full time work as an advocate for Palestinian political and human rights. The memoir begins in mid-September 1982, with a gut-wrenching day interviewing survivors of the Sabra-Shatila massacre in Lebanon, as they wept and waited for the bodies of family members to be pulled from the rubble. Donald Wagner's conversation with the local Imam ended with a challenge: "You must return home and tell what you have seen. This is all we ask. Go back and tell the truth." *Glory to God in the Lowest* is a metaphor for his counter intuitive journey with the victims of the "chosen people" in the "unholy land," also called historic Palestine or Israel. The irony of the journey reminds us that God is everywhere especially with the disinherited, the victims of the powerful, including the victims of Israeli oppression. The memoir touches on history and includes political analysis and theological reflection. In it, Donald Wagner describes Israel's continued colonization and destruction of Palestinian lives and chronicles his involvement in a grassroots movement of resistance that demands justice based on full equality, an end to the Israeli military occupation and settler colonization project, the right of return for Palestinian refugees, and full political rights for the Palestinian people. Filled with stories—some humorous and some shocking—as well as encounters with people of every race, gender, and religious affiliation working below the radar, this book will inspire, challenge, and offer a narrative that envisions a transformed "unholy land," where justice, liberation, and equality for all is the reality for every citizen.

The Story of William Duma, a humble Zulu pastor who so depended on the Lord that his ministry was filled with God's miraculous power. The author worked in South Africa and learned of the healing ministry of William Duma at the Umgeni Road Baptist Church, in a low-income area of Durban. Struck by his humility, she was led to write his story, a work completed a short time after he died in Durban in 1977. Originally published in 1979 in South Africa, reprinted in Australia in 1992, and in the UK in 2000.

What came to mind were abuses done in its name. "My mind was changed over a period of time," he goes on to say, and here he commends the richness and beauty of the Reformed worldview he now cherishes. Edgar traces the origins of the Reformed faith, explores its central truths, and probes its significance for the church's calling in the world. While sensitive to challenges before the Reformed community - even its shortcomings - he suggests avenues for further understanding and new applications of a Reformed worldview to our age. God, who said, "Let light shine out of darkness," has shone in our hearts to give the light of the knowledge of the glory of God in the face of Jesus Christ. 2 Corinthians 4:6 This book is a cry from the heart of John Piper. He is pleading that God himself, as revealed in Christ's death and resurrection, is the ultimate and greatest gift of the gospel. None of Christ's gospel deeds and none of our gospel blessings are good news except as means of seeing and savoring the glory of Christ. Forgiveness is good news because it opens the way to the enjoyment of God himself. Justification is good news because it wins access to the presence and pleasures of God himself. Eternal life is good news because it becomes the everlasting enjoyment of Christ. All God's gifts are loving only to the degree that they lead us to God himself. That is what God's love is: his commitment to do everything necessary (most painfully the death of his only Son) to enthrall us with what is most deeply and durably satisfying—namely, himself. Saturated with Scripture, centered on the cross, and seriously joyful, this book leads us to satisfaction for the deep hungers of the soul. It touches us at the root of life where practical transformation gets its daily power. It awakens our longing for Christ and opens our eyes to his beauty. Piper writes for the soul-thirsty who have turned away empty and in desperation from the mirage of methodology. He invites us to slow down and drink from a deeper spring. "This is eternal life," Jesus said, "that they know you the only true God, and Jesus Christ whom you have sent." This is what makes the gospel—and this book—good news.

"William Cobbett is one of the most remarkable men in our history. Born in 1763, the son of a Surrey farmer, and virtually self-educated, he became a prolific journalist and master of invective, and is still recognised as one of the greatest ever writers of English prose." "Cobbett lived in turbulent times, and his story is as exciting and eventful as any novel. He joined the army as a young man, but was forced to flee to France and subsequently to America after attempting to expose corruption in his regiment. In Philadelphia he began his career as a political pamphleteer, but once again fell foul of the law and returned to England, where he started his celebrated Political Register, in which for decades he would lambast corruption and excoriate hypocrisy. The foremost satirist and proponent of reform of his era, he had an inexhaustible appetite for exposing the misconduct of the ruling classes. Imprisoned in 1810 for criminal libel, he later fled to America for a second time, but on his return to England (with Thomas Paine's bones in tow) he was yet again put on trial." --Publisher's description.

This is a book offering Balthasar's theological oeuvre as a kerygma of Christ's love proclaimed theologically as Christ's esthetics of glory in his mission to reinvent himself, the world and us as beauty and glory. Balthasar's hypothesis is that there is true theology and there is false theology. For him, theology is the unique science across the methods of which the decision of faith cuts, and divides it into two halves that cannot be united to each other: a genuine theology, which presupposes faith and does its thinking within the nexus of Christ and the Church; and a false theology, which rejects faith as methodologically dubious and irresponsible, and subsumes the truth of the phenomenon which discloses itself, under an anthropological truth (however this may be understood). In William Newell's book he deeply reflects on the radical thinking being done in Catholic theology since the 1940s in Europe and now in the United States. Each chapter, each excursus, each eli-

sion, ushers the reader towards consolations without previous causes, the essence of mysticism in its first stages. The book, as with true theology, is a 'come and see' beckoning the reader to an endless furtherance of the archetypal experience of Christ.

This book shows how the UCKG utilizes rituals that are locally meaningful and are informed by local ideas about human bodies, agency and ontological balance.

In this novel exploration of Reformed spirituality, Belden C. Lane uncovers a "green theology" that celebrates a community of jubilant creatures of all languages and species. Lane reveals an ecologically sensitive Calvin who spoke of himself as "ravished" by the earth's beauty. He speaks of Puritans who fostered a "lusty" spirituality in which Christ figured as a lover who encouraged meditation on the wonders of creation. He presents a Jonathan Edwards who urged a sensuous "enjoyment" of God's beauty as the only real way of knowing God. Lane argues for the "double irony" of Reformed spirituality, showing that Calvinists who often seem prudish and proper are in fact a people of passionate desire. Similarly, Reformed Christians who appear totally focused on divine transcendence turn out at times to be closet nature mystics, exulting in God's glory everywhere. Lane also demonstrates, however, that a spirituality of desire can be derailed, ending in sexual excess and pantheism. Ecologically, holy longing can be redirected from a contemplation of God's splendor in the earth's beauty to a craving for land itself, resulting in disastrous misuse of its resources. Between the major chapters of the book are engaging personal essays drawn from the author's own love of nature as a Reformed Christian, and providing a thoughtful discussion of contemporary issues of species diversity and the honoring of an earth community.

Christianity is not just a set of moral commands. It is not just belonging to a church. It is not just remembering its founder of long ago! It is all of these, but far more, it is a vital relationship with a living and loving God! And it is the Holy Spirit, third Person of the God-head, who makes this happen. "Vinculum amoris" is Latin for "bond of love", which describes the essential activity of the Spirit. Because the Spirit links us to God, he saves us, guides and empowers us. He enlivens our worship, such as in baptism and the Lord's Supper. He stimulates our praying, and gives gifts to deepen the quality of our lives and service to God. Because he links us to God, we are linked to each other in a deeper way. Enriching? yes! And the more that we understand how the Spirit does it, the deeper this enriching will be. The author's prayer is that this book will do just that for God's people and for his Church.

A graphic illustration of the power of God in action: the dead are raised, the sick healed, the possessed delivered, and those in fear encouraged and strengthened.

Some times the Shekinah Glory is mentioned in Bible study books, or theological works. It is referred to as the "Glory Cloud" that covered the Ark and the Tabernacle. This study of the Shekinah Glory of God begins in Genesis and continues through to the book of Revelation. From the beginning of the Bible to the end, the Shekinah Glory is manifested. The reader will be impressed at the last revelation of the Shekinah when he sees how much God the Father loves His children whom He has redeemed through the cross of Christ. The Glory of the Shekinah is seen coming down from heaven to dwell with His children on earth for ever. This manifestation of the Father is a new teaching to many Bible students. It is the prayer of the author that this book will be able to bring glory and praise to God. Amen! The author of this book did not take the well traveled road. He came out of the slums of south Baltimore. He started studying the Bible when he was a teenager and the Bible has been his life's work. He never finished high school and yet went to seminary first, and then attended college. He graduated summa cum laude, and first in the class from Nyack College, to get his Masters degree. He has been a pastor for many years. The Shekinah Glory was his seminary thesis. George Miller dedicates this book to his wife, Edwina, who asked him many times to publish his thesis. He has tried to simplify the subject so that beginners as well as the more mature theologians may enjoy this study and learn from it. May the Lord bless the reading of this book.

This rich history of Antwerp was a Times Book of the Year and Radio 4 Book of the Week Even before Amsterdam there was a dazzling North Sea port at the hub of the known world: the city of Antwerp. Antwerp was sensational like nineteenth-century Paris or twentieth-century New York, somewhere anything could happen or at least be believed: killer bankers, easy kisses, a market in secrets and every kind of heresy. For half the sixteenth century, it was the place for breaking rules - religious, sexual, intellectual. In Antwerp, things changed. One man cornered all the money in the city and reinvented ideas of what money meant. Another gave An-

twerp a new shape purely out of his own ambition. Jews fleeing the Portuguese Inquisition needed Antwerp for their escape, thanks to the remarkable woman at the head of the grandest banking family in Europe. Thomas More opened Utopia there, Erasmus puzzled over money and exchanges, William Tyndale sheltered there and smuggled out his Bible in English until he was killed. Pieter Bruegel painted the town as The Tower of Babel. But when Antwerp rebelled with the Dutch against the Spanish and lost, all that glory was buried and its true history rewritten. The city that unsettled so many now became conformist. Mutinous troops burned the city records. Michael Pye sets out to rediscover the city that was lost and bring its wilder days to life using every kind of clue: novels, paintings, songs, schoolbooks, letters and the archives of Venice, London and the Medici. He builds a picture of a city haunted by fire, plague and violence, but learning how to be a power in its own right in the world after feudalism. This is the Antwerp which was the proud 'exception' to all of Europe.

The world already knows who I am. Destroyer. Killer. I am ruler. I reign. My kingdom, my family--I am in control. I was never supposed to fall for her. Power. Beauty. Strength. She makes me vulnerable. She could get me killed. And I'll be damned if my heart is my weakness. When it comes down to the kingdom and what I desire . . . the kingdom will always win.

This is a collection of profiles of 30 African church leaders from different denominations. The first missionaries, the Moravians, established a mission station in South Africa as early as 1737, but it was only after 1800 that work by various missionary societies and denominations really began. Although the missionaries were dedicated to the task of spreading the Gospel, the Christian church would not have been planted so successfully without the help of indigenous South African converts who were familiar with the language and culture of the people to whom they preached. These men and women were every bit as dedicated to spreading the Gospel as the missionaries, but little is known about their work. In official documents they were sometimes referred to as 'evangelists'. There are also only a few profiles of women in this collection because so little information has been recorded about them.

The inspiring and informative biography of Martin Holdt, a pastor whose life touched many people, and with remarkable outcomes. Martin Holdt exercised a ministry in Southern Africa and beyond from the 1960s through the early 2000s. A godly and influential

man, his life was marked by prayer and faithfulness to the call to be a pastor as well as being a visionary for planting and establishing God-centered, Bible based churches, and with a vision for worldwide mission. Includes a postscript appendix by Erroll Hulse. In this book, three missiologists (Priest, Campbell, and Mullen) wrestle with the issue of spiritual power. The first two chapters deal with spiritual warfare while the third chapter affirms the role of prayer and the Holy Spirit in missions.

Rodney Stark's provocative new book argues that, whether we like it or not, people acting for the glory of God have formed our modern culture. Continuing his project of identifying the widespread consequences of monotheism, Stark shows that the Christian conception of God resulted--almost inevitably and for the same reasons--in the Protestant Reformation, the rise of modern science, the European witch-hunts, and the Western abolition of slavery. In the process, he explains why Christian and Islamic images of God yielded such different cultural results, leading Christians but not Muslims to foster science, burn "witches," and denounce slavery. With his usual clarity and skepticism toward the received wisdom, Stark finds the origins of these disparate phenomena within monotheistic religious organizations. Endemic in such organizations are pressures to maintain religious intensity, which lead to intense conflicts and schisms that have far-reaching social results. Along the way, Stark debunks many commonly accepted ideas. He interprets the sixteenth-century flowering of science not as a sudden revolution that burst religious barriers, but as the normal, gradual, and direct outgrowth of medieval theology. He also shows that the very ideas about God that sustained the rise of science led also to intense witch-hunting by otherwise clear-headed Europeans, including some celebrated scientists. This conception of God likewise yielded the Christian denunciation of slavery as an abomination--and some of the fiercest witch-hunters were devoted participants in successful abolitionist movements on both sides of the Atlantic. For the Glory of God is an engrossing narrative that accounts for the very different histories of the Christian and Muslim worlds. It fundamentally changes our understanding of religion's role in history and the forces behind much of what we point to as secular progress.

This book offers biblical, theological, and scientific perspectives on the subject of divine self-revelation and human response to the manifestations of divine presence.

What does it mean to be a creative individual who is a follower of the creative God? This book seeks to answer that question

through collections of essays which offer theoretical and practical insights into making music from a Christian perspective.

Even a cursory glance at the moral state of society, and regrettably, often including the Church, shows a remarkable lack of holiness. Yet God commanded us to be holy, as he is holy. Is not the lack of holiness at the root of much of the weakness of today's church? This in-depth study of sanctification centres on what God, Father, Son and Holy Spirit, has done to make us holy, and what the Christian response should be. It understands sanctification as both demanded by, and dependent upon justification, an ongoing process coupled with distinct events of grace. Christ has died for us to enable forgiveness; sanctification is the development of the life of Christ in us. A feature of the book is its provision of several illustrations of the path of Christian sanctification.

Christianity Today 2013 Book Award Winner Winner of The Foundation for Pentecostal Scholarship's 2012 Award of Excellence 2011 Book of the Year, Christianbook.com's Academic Blog Most modern prejudice against biblical miracle reports depends on David Hume's argument that uniform human experience precluded miracles. Yet current research shows that human experience is far from uniform. In fact, hundreds of millions of people today claim to have experienced miracles. New Testament scholar Craig Keener argues that it is time to rethink Hume's argument in light of the contemporary evidence available to us. This wide-ranging and meticulously researched two-volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts. Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic, Keener suggests that many miracle accounts throughout history and from contemporary times are best explained as genuine divine acts, lending credence to the biblical miracle reports.

It's the most important question we can ask: Who is God? The wrong answer could spell our doom, but God has clearly revealed Himself and His majesty in His Word. Just as Moses asked the Lord on the summit of Sinai, we can approach God's Word with the ultimate request: "Show me Your glory." In Show Me Your Glory: Understanding the Majestic Splendor of God, Dr. Steven Lawson takes us to the mountaintop of divine revelation by distilling the Bible's teaching about God Himself. Each chapter delves into the depths of God's awesome attributes, teaching that a deeper knowledge of our Creator can lead us into intimate fellowship with and reverent worship of the One who made us for Himself.
