For students learning remotely, LCS has teachers dedicated to those students. Brittney Carroll is a first grade teacher, holding remote classes from her classroom at Tallmadge.

What is teaching and learning? Teaching is about using various activities to help learners gain the skills and understanding they need for a particular reason e.g. to gain a qualification or to perform a particular job role. You will teach, and your learners will learn. Learning is about gaining and using new knowledge to demonstrate a change. This change might relate to the performance of a skill, the demonstration of understanding and/or a change in behaviour and attitudes.

Teaching and learning are vital processes in survival as they comprise the very foundations of growth. Both of these methods are necessary in achieving development by seeking to actualize significant changes in behaviors. Equally, they have various styles and theories that guide the education system. They are also essentially interconnected in a way that you have to learn something before you can actually teach it and that the act of teaching can make you learn something.
