Techniques and guidelines are organized for use at five phases of the change process and to address both direct and indirect practice activities, thus supporting the CSWE accreditation standards to introduce the generalist perspective to both baccalaureate and foundation level master's social work education.

ost of the techniques and guidelines described in prior sections of this book could be used by almost any social worker, in almost any social work position, in almost any human services agency. In addition to the generic tools of the social worker's trade, specialized knowledge and skills are required for some social work practice activities.
