Terminologia Anatomica International Anatomical Terminology

Terminologia Anatomica. Terminologia Anatomica, in a broad sense, is a list of terms that pertain to the anatomy of the human body. It has been the subject of much controversy and disagreement. Previously, the International Anatomical Nomenclature Committee has been responsible for the production of six editions of Nomina Anatomica.

In 2016, the Federative International Programme for Anatomical Terminology (FIPAT) tentatively approved the updated and extended version of anatomical terminology that replaced the previous version of Terminologia Anatomica (1998).
