I expose that the superhero's prevalence in popular culture grants all Americans a shared language and cultural currency that can be used even by the disenfranchised to make their voices heard. Thus these progressive superhero performances work as benchmarks by which we may measure and question the state of social equality in America today.

A major proponent of Palestinian liberation offers a comprehensive analysis of the current conflict with Israel—and the potential for Palestinian victory. As the longstanding tensions between Israel and Palestine continue to erupt into violence, Ali Abunimah offers astute insights into the politics behind the headlines. In *The Battle for Justice in Palestine*, Abunimah looks at the shifting tides of Palestine and the Israelis in a neoliberal world—and makes a compelling and surprising case for why the Palestine solidarity movement just might win. Abunimah is a Palestinian-American journalist and major proponent of a one-state solution with equality for all. In *The Battle for Justice in Palestine*, he shares his hopeful vision of victory against Israeli apartheid and colonialism. “This

is the book to read to understand the present bizarre and ongoing complexity of the Palestine/Israel tragedy.” —Alice Walker

A pioneering study of prisons in West Africa. Personal accounts by prisoners of Kirikiri maximum security prison present the realities of imprisonment in Nigeria while chapters by scholars and activists contextualize the colonial legacies that have created systemic human rights violations.

The history of criminal justice in modern Germany has become a vibrant field of research, as demonstrated in this volume. Following an introductory survey, the twelve chapters examine major topics in the history of crime and criminal justice from Imperial Germany, through the Weimar and Nazi eras, to the early postwar years. These topics include case studies of criminal trials, the development of juvenile justice, and the efforts to reform the penal code, criminal procedure, and the prison system. The collection also reveals that the history of criminal justice has much to contribute to other areas of historical inquiry: it explores the changing relationship of criminal justice to psychiatry and social welfare, analyzes representations of crime and criminal justice in the media and literature, and uses the lens of criminal justice to illuminate German social history, gender history, and the history of sexuality.

From Amanda Knox to O.J., Casey Anthony to Kyle Rittenhouse, our justice system faces scrutiny and pressure from the media and public like never before. Can the bedrock of “innocent until proven guilty” survive in what acclaimed Seattle attorney and legal analyst Anne Bremner calls the age of judgement? When unscrupulous Italian prosecutors waged an all-out war in the media and courtroom to wrongly convict American exchange student Amanda Knox for a murder she didn’t commit, family and friends turned to renowned Seattle attorney and media legal analyst Anne Bremner to help win her freedom. The case was dubbed the

“trial of the decade” and would coincide with the explosion of social media and a new era of trying cases in public as much as the courtroom. While Italian prosecutors, the press, and online lynch mobs convicted Knox in the court of public opinion, Bremner would draw upon her decades in the courtroom and in front of the camera to turn the tide with a new kind of defense in pursuit of justice. In *Justice in the Age of Judgement*, Anne Bremner and Doug Bremner take us inside some of the biggest cases of recent times and offer their expert, thought-provoking insights and analysis as our legal system faces unprecedented forces fighting to tip the scales of justice their way. Why couldn’t prosecutors convict O.J. Simpson despite all of the evidence seemingly proving he killed his wife Nicole? Could a jury remain unbiased in the face of overwhelming public pressure in the trial of Minneapolis police officer Derek Chauvin for the murder of George Floyd? Why was Kyle Rittenhouse exonerated after shooting three people (killing two) with an assault rifle at a violent rally despite widespread media reports seemingly proving his guilt, and national calls for his conviction? *Justice in the Age of Judgement* is an unparalleled and unflinching look at the captivating cases tried on Twitter and TV, where the burden of proof and fundamental legal tenet of “innocent until proven guilty” is under assault from the court of public opinion.

When President Reagan nominated Robert Bork to the Supreme Court, it was the spark that fueled a months-long firestorm during which liberals and conservatives battled fiercely over Reagan’s choice, each trying to gain control of the nation’s judicial future. The American public, captivated by this struggle for power, weighed in with an unprecedented outpouring of mail and telephone calls to the United States Senate arguing both pro- and con- positions. Based on scores of interviews with key figures and a shrewd analysis of the issues, then-Boston Globe reporter Ethan

Bronner chronicles this engrossing story of a titanic struggle for political power. It features key players such as Senators Joseph Biden and Edward Kennedy, with the latter leading the fight against the appointment using savvy Madison Avenue style strategies; a Justice Department desperate to hold its ground; a shocked White House staff, caught off-guard; and of course Bork himself, who insisted that "the process of confirming justices for our nations highest court has been transformed in a way that should not and indeed must not be permitted to occur again." Featuring a new epilogue, "Where Are They Now?"

Excerpt from *The Battle of Lexington: As Looked at in London Before Chief-Justice Mansfield and a Jury in the Trial of John Horne, Esq., For Libel on the British Government* The Order of the Founders and Patriots of America, is an Historical and Patriotic Society, consisting of descendants of those who, within the first fifty years after the settlement of Jamestown, came to and settled in the eight colonies, which afterwards became parts of the United States. Its members are also required to show that their intermediate ancestors of the Revolutionary period adhered as patriots to the cause of the Colonies. In the month of February, 1896, a few gentlemen met in the Astor House, in New York City, and took the preliminary formal steps toward the formation of the Order. On the 16th day of March, 1896, nine of those persons, namely: Edward N. G. Greene, Howard S. Robbins, Howard Marshall, Henry L. Morris, John Quincy Adams, Ralph E. Prime, Charles W. B. Wilkinson, Henry Hall and William W. Goodrich, met and founded the Order, and executed the Certificate of Incorporation of the New York Society. A plan of organization of the Order, with a general Constitution and By-Laws for the Order, was prepared, and on the 17th day of April, 1896, was adopted by the New York Society. The latter then consisted of seventy-eight gentlemen, whose eligibility had been examined, and who had been invited by the Founders of the Order to join them as Charter Members, and participate in the formal organization. The plan embraced an Order, consisting of State Societies and Chapters, having a central representative body called the General Court. Since the organization of the Order, and of the New York State Society, societies have also been formed in New Jersey, Connecticut, Pennsylvania and Massachusetts, and Chapters of the New State Society have been created in Albany and Syracuse. The first Governor of the New York Society was Col. Frederick Dent Grant, who was succeeded in turn

by Col. Ralph Earl Prime, and he, in turn, by the incumbent, Hon. William Winton Goodrich. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. God is challenging you to enlist in the noblest of all battles-the battle for our children. This is the cry resonating throughout the earth. 1.2 billion "children at risk" cannot be ignored. This book is a compelling case for you to be a hero in the life of "children at risk," beginning with scriptural understanding of mercy and justice to the poor. Then, setting the stage historically, the authors unveil the great exploits of those awesome warriors who have gone before us, outlining their struggles to serve the masses of broken humanity. Finally, Be a Hero time warps into the third millennium, introducing the seven deadly sins uniquely facing children: extreme poverty, orphans of the streets, children in chains, sex in the city, AIDS and plagues, the oppression of war, and religious persecution. But it doesn't leaving you hanging in despair. Be a Hero is a revolutionary document that prepares you to change your world.

This text provides an introduction to conceptions of international justice, spanning 2500 years of intellectual history from Thucydides and Plato to Morgenthau and Waltz. It shows how older traditions of political philosophy remain relevant to contemporary debates in international relations.

Sarah Fishman links two areas of inquiry, namely crime and delinquency with war and social change. In a study based on archival research, Sarah Fishman reveals the impact and legacy of the Vichy regime's criminal justice policy on children.

Justice in War-time, first published in 1916, is a collection of Bertrand Russell's essays on war. He claims that humans have an instinct toward war, but that this instinct needs to be sufficiently roused in order to spark conflict. He analyzes British foreign policy during the ten years before the First World War in an effort to dis-

cover how England may have contributed to the problem. The essays included in this volume are: . "An Appeal to the Intellectuals of Europe" . "The Ethics of War" . "War and Non-Resistance" . "Why Nations Love War" . "The Future of Anglo-German Rivalry" . "Is Permanent Peace Possible?" . "The Danger to Civilization" . "The Entente Policy, 1904-1915. A Reply to Professor Gilbert Murray" British philosopher and mathematician BERTRAND ARTHUR WILLIAM RUSSELL (1872-1970) won the Nobel Prize for Literature in 1950. Among his many works are *Why I Am Not a Christian* (1927), *Power: A New Social Analysis* (1938), and *My Philosophical Development* (1959).

Challenging traditional models for conducting social science research within marginalized populations, "research justice" is a strategic framework and methodological intervention that aims to transform structural inequalities in research. This book is the first to offer a close analysis of that framework and present a radical approach to socially just, community-centered research. It is built around a vision of equal political power and legitimacy for different forms of knowledge, including the cultural, spiritual, and experiential, with the goal of greater equality in public policies and laws that rely on data and research to produce social change.

The Witnesses presents findings from the first study of victim-witnesses who have testified before an international war crimes tribunal. Witnesses describe their family tragedies, their moral duty to testify on behalf of the dead, their courtroom encounters with the accused, their aspirations for justice, and their disappointments.

Ali Abunimah provides an effective strategy for advancing the struggle for a just, single-state solution in Palestine.

'Della's story is tragic, shocking and heart-breaking, but she must be heard. Della is an inspirational and dedicated campaigner who I've been proud to support. Her book eloquently portrays her past vulnerability and her steadfast determination to help others. A must read! Sarah Champion, MP 'I'd been the unwanted child, the little girl who got in the way. I swore I'd put my abuser behind bars and I'd fight with every breath in my body against the life sentence he'd given me. This was my time.' Della Wright is an incredible campaigner for the rights of abuse victims after suffering a lifetime of betrayal. Left alone at home for the first time at only two years old by those tasked with her care, Della was let down first by social services. When known paedophile Terry Price entered her life when she was six, moving into her home, he would groom and sexually abuse her for the next five years. Even the sight of a little girl going to his probation meetings wasn't enough to make the authorities act. After a lifetime of violent relationships and mental health problems, Della eventually managed to put her childhood abuser behind bars for 22 years, a decade after first going to the police. He had changed his name multiple times to evade detection for his many crimes. As an ambassador for the Safeguarding Alliance, Della now campaigns to ensure offenders cannot slip through the net by giving themselves new identities. She has vowed to try and stop anyone experiencing the same neglect, betrayal and abuse she did.

This critical and highly topical introduction to the current debates and politics surrounding welfare reform in the United Kingdom and the United States explains the origins and main tenets of the new Blair-Clinton orthodoxy. Central to the book is an examination of this orthodoxy's appeal to the concept of social justice. Bill Jordan demonstrates how values derived from the family and voluntary associations are in danger of running counter to the more fundamental principles of liberal democracy and the requirements of transnational economic exchange. He links the new politics of welfare to liberal and communitarian theories of citizenship and social justice, and assesses the broader prospects for European social policy in

"Extraordinary Justice seeks to fill an important gap in our understanding of what military tribunals are, how they function, and their relative successfulness in rendering justice in the extreme conditions occasioned by war, by placing them in comparative and historical context. Peter Judson Richards examines the tribunals as a national response to the incidents of war in four conflicts: the American Civil War, the British experience in the Boer War, the French practices of the First World War, and the allied measures of the Second World War." "Richards also considers the larger political, legal, and military context, addressing the scholarly and policy debates that invariably arise with the implementation of these extraordinary measures. While acknowledging the mixed record of the national tribunals, he concludes that enduring elements in the character of warfare, of justice, and the nature of political reality together justify their continued use."--BOOK JACKET.

The book shows how moral theory can challenge and improve international criminal law and how extreme cases can challenge and improve mainstream theory.

Set in Appalachian coal country, this "superb" (Pittsburgh Post-Gazette) legal drama follows one determined lawyer as he faces a coal industry giant in a seven-year battle over clean drinking water for a West Virginia community. For two decades, the water in the taps and wells of Mingo County didn't look, smell, or taste right. Could the water be the root of the health problems—from

kidney stones to cancer—in this Appalachian community? Environmental lawyer Kevin Thompson certainly thought so. For seven years, Thompson waged an epic legal battle against Massey Energy, West Virginia's most powerful coal company, helmed by CEO Don Blankenship. While Massey's lawyers worked out of a gray glass office tower in Charleston known as "the Death Star," Thompson set up shop in a ramshackle hotel in the fading coal town of Williamson. Working with fellow lawyers and a crew of young activists, Thompson would eventually uncover the ruthless shortcuts that put the community's drinking water at risk. Retired coal miners, women whose families had lived in the area's coal camps for generations, a respected preacher and his brother, all put their trust in Thompson when they had nowhere else to turn. Desperate is a masterful work of investigative reporting about greed and denial, "both a case study in exploitation of the little guy and a playbook for confronting it" (Kirkus Reviews). Maher crafts a revealing portrait of a town besieged by hardship and heartbreak, and an inspiring account of one tenacious environmental lawyer's mission to expose the truth and demand justice. An instant New York Times Bestseller! "Stirring...Lithwick's approach, interweaving interviews with legal commentary, allows her subjects to shine...Inspiring."—New York Times Book Review "In Dahlia Lithwick's urgent, engaging *Lady Justice*, Dobbs serves as a devastating bookend to a story that begins in hope."—Boston Globe Dahlia Lithwick, one of the nation's foremost legal commentators, tells the gripping and heroic story of the women lawyers who fought the racism, sexism, and xenophobia of Donald Trump's presidency—and won After the sudden shock of Donald Trump's victory over Hillary Clinton in 2016, many Americans felt lost and uncertain. It was clear he and his administration were going to pursue a series of retrograde, devastating policies. What could be done? Immediately, women lawyers all around the country, independently of each other, sprang into action, and they had a common goal: they weren't going to stand by in the face of injustice, while Trump, Mitch McConnell, and the Republican party did everything in their power to remake the judiciary in their own conservative image. Over the next four years, the women worked tirelessly to hold the line against the most chaotic and malign presidency in living memory. There was Sally Yates, the acting attorney general of the United States, who refused to sign off on the Muslim travel ban. And Becca Heller, the founder of a refugee as-

sistance program who brought the fight over the travel ban to the airports. And Roberta Kaplan, the famed commercial litigator, who sued the neo-Nazis in Charlottesville. And, of course, Stacey Abrams, whose efforts to protect the voting rights of millions of Georgians may well have been what won the Senate for the Democrats in 2020. These are just a handful of the stories Lithwick dramatizes in thrilling detail to tell a brand-new and deeply inspiring account of the Trump years. With unparalleled access to her subjects, she has written a luminous book, not about the villains of the Trump years, but about the heroes. And as the country confronts the news that the Supreme Court, which includes three Trump-appointed justices, will soon overturn *Roe v. Wade*, Lithwick shines a light on not only the major consequences of such a decision, but issues a clarion call to all who might, like the women in this book, feel the urgency to join the fight. A celebration of the tireless efforts, legal ingenuity, and indefatigable spirit of the women whose work all too often went unrecognized at the time, *Lady Justice* is destined to be treasured and passed from hand to hand for generations to come, not just among lawyers and law students, but among all optimistic and hopeful Americans.

In 1981, when Raymond Abbott was a twelve-year-old sixth-grader in Camden, New Jersey, poor city school districts like his spent 25 percent less per student than the state's wealthy suburbs did. That year, Abbott became the lead plaintiff in a landmark class-action lawsuit demanding that the state provide equal funding for rich and poor schools. Over the next twenty-five years, as the non-profit law firm representing the plaintiffs won ruling after ruling from the New Jersey Supreme Court, Abbott dropped out of school, fought a cocaine addiction, and spent time in prison before turning his life around. Raymond Abbott's is just one of the many human stories that have too often been forgotten in the policy battles New Jersey has waged for two generations over equal funding for rich and poor schools. *Other People's Children*, the first book to tell the story of this decades-long school funding battle, interweaves the public story—an account of legal and political wrangling over laws and money—with the private stories of the inner-city children who were named plaintiffs in the state's two school funding lawsuits, *Robinson v. Cahill* and *Abbott v. Burke*. Although these cases have shaped New Jersey's fiscal and political landscape since the 1970s, most recently in legislative arguments over tax reform, the debate has often been too abstract and technical for most citizens to understand. Written in an accessible style and based on dozens of interviews with lawyers, politicians, and the plaintiffs themselves, *Other People's Children* crystallizes the arguments and clarifies the issues for general readers. Beyond its implications for New Jersey, this book is an important contribution to the conversations taking place in all states about the nation's responsibility for its poor, and the role of public schools in providing equal opportunities and promising upward mobility for hard-working citizens, regardless of race or class.

Taking as its starting point the post-World War II tribunals at Nuremberg and Tokyo, this book goes on to discuss the creation of ad hoc international tribunals in the 1990s, hybrid/mixed courts, the International Criminal Court, domestic trials, Truth Commissions, and traditional justice mechanisms.

"Published in Germany in 1996, *A Journey to the Rivers* created a firestorm of controversy, being likened, by some, to revisionist writings mitigating Nazi guilt for World War II. But that is a grave misreading of the book, for Peter Handke proffers no justification or explanations for Serbian atrocities in the Balkan conflict. *A Journey to the Rivers* is, rather, both a scathing criticism of Western war reporting, which Peter Handke describes as lazy and mendacious, and a wonderfully sensitive and nuanced travelogue through Serbia."--BOOK JACKET.
