The first critique of this paper to appear, When a Bazaar is Not a Bazaar, was thought-provoking but (IMO) basically wrongheaded. There is better commentary available, and a very thoughtful critique in Beyond the Cathedral, Beyond The Bazaar. The Linux Storm attempts to situate this paper within a larger analysis.

The fact that this bazaar style seemed to work, and work well, came as a distinct shock. As I learned my way around, I worked hard not just at individual projects, but also at trying to understand why the Linux world not only didn't fly apart in confusion but seemed to go from strength to strength at a speed barely imaginable to cathedral-builders.
