Icing conditions exist when the air contains droplets of supercooled liquid water; icing conditions are characterized quantitatively by the average droplet size, the liquid water content and the air temperature. These parameters affect the extent and speed that characterize the formation of ice on an aircraft.

Icing conditions

The present definition of severe is contradictory to 14 CFR 91.209(c) and 135.227(c) which allow icing-certificated airplanes to fly into severe (uncontrollable, by definition) icing conditions. The definitions give no objective standard or rules for pilots to decide which icing intensity the aircraft is experiencing at the moment, or for distinguishing one intensity level from the next.

Icing on the cake - Idioms by The Free Dictionary

In ice hockey, icing is an infraction when a player shoots the puck over the center red line and the opposing team's red goal line, in that order, and the puck remains untouched without scoring a goal.. It is not icing if the puck enters the goal, even if it was shot from behind the center line. If

the puck crosses the goal line completely, the goal is counted.

Icing (ice hockey) - Wikipedia

Foam icing comes in a variety of flavors and has a soft, fluffy appearance. A meringue is made of whipped egg whites with a flavored syrup added. Marshmallow foam is a common variety, but other flavors such as chocolate or vanilla can also be added to the meringue.. Mint is often added to fudge icing. Fondant gives a cake or pastry an elegant appearance and is popular for wedding cakes and ...

What are the Seven Main Types of Icing? (with pictures)

Icing" -- or "getting iced" -- is a frat star drinking game. The rules are simple: If a person sees a Smirnoff Ice, he or she must get down on one knee and chug it, unless they happen to be carrying their own Smirnoff, in which case they can "ice block," or refract the punishment back onto the attacker. In order to dupe people into stumbling across the beverage, participants have devised ...
