Improving the Evaluation of Risk of Fall through Clinical ...

Background. Falls are a common and devastating complication of hospital care, particularly in elderly patients. Epidemiologic studies have found that falls occur at a rate of 3-5 per 1000 bed-days, and the Agency for Healthcare Research and Quality estimates that 700,000 to 1 million hospitalized patients fall each year. Patients in long-term care facilities are also at very high risk of falls.

BMJ Evidence-Based Medicine publishes original evidence based research, insights and opinions on what matters for health care. The journal focuses on the tools, methods, and concepts that are basic and central to practising evidence-based medicine.

This collection of effective fall interventions is designed to help public health practitioners, senior service providers, clinicians, and others who want to address older adult falls in their community. This 3rd edition of the Compendium describes single interventions (15 exercise interventions, 4 ...

Because medical issues are often technical issues, the average reader of the average conspiracy book is likely to take the word of the author that such and such is true. Few people, after all, have the medical training to dispute what the book says. Further, the doctors who performed the autopsy, and the Warren Commission which had to reach conclusions based on the medical evidence, blundered ...

The Battle of Jericho is an incident from the Book of Joshua, being the first battle fought by the Israelites in the course of the conquest of Canaan. According to Joshua 6:1-27, the walls of Jericho fell after the Israelites marched around the city blowing their trumpets, but excavations at Tell es-Sultan, the biblical Jericho, have failed to substantiate the story, which has its origins in ...

Key Piece Of Democrats' Evidence In Impeachment Appears To ...

A multifactorial approach to assess and manage modifiable risk factors is recommended for older adults with a history of falls. Limited research suggests that this approach does not routinely occur in clinical practice, but most related studies are based on provider self-report, with the last chart audit of United States practice published over a decade ago.

NASA's Curiosity rover has found new evidence preserved in rocks on Mars that suggests the planet could have supported ancient life, as well as new evidence in the Martian atmosphere that relates to the search for current life on the Red Planet.

Fall and Injury Prevention - Patient Safety and Quality ...

Background. Fall and injury prevention continues to be a considerable challenge across the care continuum. In the United States, unintentional falls are the most common cause of nonfatal injuries for people older than 65 years.

Falls are frequent adverse hospital events and the second accidental cause of death worldwide. In previous research we identified that nurses have difficulties in the application of the Morse Fall Scale (MFS) and in the falls prevention protocol.

The Fall Evidence For A

Democrats released records earlier this week claiming that Trump lawyer Rudy Giuliani had been in contact with the United States Office of Management and Budget (OMB) — which held the \$400 million in U.S. aid to Ukraine earlier this year — a claim that now appears to be in doubt. “House Democrats earlier this week [...]
